HARDING NOT TO REDUCE TARIFF
Will Take No Chance Now on Injuring Trade
Thinks Cut in Sugar Duty Would be Useless
President and Commission Confer on Plans

BY GRAFTON WILCOX
WASHINGTON, June 1.—As a protectionist President Harding will take no chance on injuring business through unnecessary reductions in tariff rates. It was declared today at the White House. The President is firmly convinced that it would be useless to cut the duty on sugar. It is his opinion that a reduction in duty would not affect the price of sugar to any material extent and that serious injury might be done to the domestic industry.

HOLDING CONFERENCE
The President held conference during the day with the two protectionist members of the Tariff Commission, Thomas C. Marvin, chairman, and William Burgess. While nothing was made public, regarding the details of their discussions, it was understood that they talked over various proposed and pending investigations.

HARDING WELL PLEASED
Following the conference with members of the commission it was declared that the President is well satisfied with its work. Both the President and the commission, it was asserted, are desirous of making the flexible tariff fully effective and not to allow it to become a dead letter.

TUJUNGA
Our Little Yosemite Valley
In the green Verdugo Hills
The Beaches or the Mountains, Which?
The hour has now come when forebanded people must choose the permanent place where you will build the fireplace around which your descendants will cluster. Industrial centers will wreak havoc upon homes in the lowlands. Watch the throngs taking hold of Tujunga. These are your hours of opportunity. Our terms and prices on present offerings lead you into thrift, happiness and fortune. The Home Extension with 33 years of Los Angeles development activities, tells you this.

CALIFORNIA HOME EXTENSION ASSOCIATION
M. V. HARTRANFT, Pres.—Main 762
TUJUNGA and 625 S. Figueroa St., Los Angeles
Auto Trip Week Days at 10:30 A.M.
Bring a bag of cement, a trowel, and come build a cabin of your own. You who love the great outdoors and do not care to maintain an extensive estate in the hills, but want a "little cabane" and just enough ground to grow plenty of avocados, oranges, raisins and table grapes and other good things to eat, and have a refuge and retreat from the strife and noise and damp night air of the city, in the soothing aroma of the high mountain chaparral. Using eucalyptus for rafters, palm leaves for thatched roof, flat stones for porch floor, old photograph negatives to make French glass windows, a local man has erected a model bungalow cabin that money can hardly duplicate in town. Ask to see it. The outdoor living-room is merely the drooping branches of a live oak tree, lit by electricity and furnished with rustic benches. The idea is carried further in other buildings near here, using palm leaves for roof and eadings and newspaper matrices for interior wall board and rustic home-made furniture from aculeatus poles.

**CHAMP FLYERS
IN WASHINGTON**

Kelley and Macready Land
in Famous Monoplane

Aviators Will be Greeted by
President Harding

Mail Pilot Will Seek New
Coast-to-Coast Record

(BY A. P. NIGHT WIRE.)
WASHINGTON, June 1.—Lieuts. Oakley G. Kelley and John A. Macready, Army Air Service, arrived in Washington from Dayton, O., today in the Army transport monoplane T-3, completing a historic return to the East from their non-stop flight from New York to San Diego.

The aviators landed at Bolling field at 2:30 p.m. They will remain in Washington during the week and will be greeted by President Harding at the White House.

The T-3 will be placed on exhibition near Washington Monument where the Navy flying boat NC-4, which made the trans-Atlantic voyage, will be displayed during the Marine convention next week.

Lieut. Kelley and Macready with other Army and Navy aviators will participate in a joint airplane maneuvers and in aerial field day events during the convention.

A twenty-hour non-stop coast to coast flight in a home-made airplane will be attempted within the next ten days by Clara E. Vance, a Los Angeles (Ind.) air mail pilot, the National Aeronautic Association announced today. Vance plans to go alone without mechanical or alternate pilot.

Vance's machine, which she built herself, weighs fully loaded 1200 pounds, has a top speed of 120 miles an hour. She plans to leave San Francisco at 10 o'clock at night, and arrive in New York the following evening. Last February in a mailplane Vance made the first successful landing on the crest of the Sierra Nevada Mountains.

TEXAS MORGAN MEET DIE
(BY A. P. NIGHT WIRE.)
PHILADELPHIA, June 1.—Wm. M. Morgan, convicted of kidnapping and slaying 6-year-old Lillian Gish, died last February, was sentenced to die in the electric chair.

**MANDANCES
WITH DEATH
AS PARTNER**

Matron Collapses While in
Last Waltz; Succumbs as
Her Guests Watch

(EXCLUSIVE DISPATCH.)
CHICAGO, June 1.—Mrs. Eugene W. Lillienfeld, 27 years of age, slipped from the arms of her partner as she danced at the Lincoln Tavern, four miles west of Evanston, early today and died before she could be removed from the floor.

After a postmortem examination by Dr. W. W. Burmeister, Coroner's physician, it was announced that Mrs. Lillienfeld was the victim of heart disease. Overexertion caused the strain on the heart, he said. As a result of the finding, no inquest was ordered.

Mrs. Lillienfeld was entertaining a party at the tavern in honor of Mr. and Mrs. Alec Marcuse of New York City, clients of the firm, who were passing through Chicago. There were fourteen in the party.

The party had passed the evening at the roadhouse and was preparing to depart. As Mrs. Lillienfeld glided through her last waltz before leaving she suddenly gasped and sank to the floor. Her friends carried her to a lounge, thinking she had fainted.

When they failed to revive her she was taken to an automobile and rushed to the St. Francis Hospital in Evanston. Dr. E. C. McGuire was called. He said she had died before reaching the hospital.

Eugene Lillienfeld is a partner in the tobacco firm of Lillienfeld Bros. & Co. He was in Tampa, Fla., at the time of the tragedy, but was immediately summoned home. They have one daughter, Mary, 15 years of age.

RECOVERING FROM BURNS
(EXCLUSIVE DISPATCH.)
MIAMI (Fla.) June 1.—Mrs. J. W. McLaughlin is recovering from severe burns caused by the explosion of a gasoline can. Her life is believed to have been saved by the intelligence of a little daughter, who ran to her aid with a bucket of water, in which she wrapped herself, and to the nearness of a water tap, from which she obtained water.

COMPANY GIVES CHARTER
(EXCLUSIVE DISPATCH.)
LONGVIEW (Tex.) June 1.—Rogers Lacy and associates have chartered the Lacy-Miles Lumber Company for general lumber manufacturing, the capital being \$250,000.

Jones and Baker Bankruptcy
Rushes Selling

Creditors Form Committee to
Guard Interests

Rumor of Federal Inquiry
Meets Denial

(BY A. P. NIGHT WIRE.)
NEW YORK, June 1.—Creditors of Jones and Baker, leading brokerage house on the New York Curb market, which was forced into involuntary receivership yesterday, today took steps to protect their interests by organizing a committee with John A. Nevenhouse as chairman. The firm had more than \$900 customers throughout the country, most of them with small accounts.

A large force of accountants started the tedious task of going over the books and it was said that it would be at least two weeks before an accurate estimate could be made of the assets and liabilities. The liquidation has been estimated unofficially to be between \$5,000,000 and \$10,000,000.

REPORT OF INQUIRY
The financial district seethed with rumors today. The most persistent was that the District Attorney's office was investigating a number of other curb market houses, but this was denied by Dist. Atty. Stanton.

Another report had it that the private fortune of William R. Jones, principal partner of the company, which is estimated at between \$7,500,000 and \$10,000,000, would be secured by the receiver for creditors but there was no confirmation.

Members of the firm reiterated their statement that it was solvent and that it would pay 100 cents on the dollar.

Bankruptcy proceedings against the firm brought a flood of selling orders into both the curb market and New York Stock Exchange during the day, the losses in active issues ranging from 1 to 5 points.

HEAVY STOCK OFFERING
While the weakness was due in part to the fact that the rapidity of the recent advance in both markets had left stocks in a weakened technical position, thereby encouraging short selling, there were heavy offerings of stocks on the curb held by other houses for the account of Jones and Baker.

Brokers firms with curb market connections reported heavy

(EXCLUSIVE DISPATCH.)
DUBLIN, June 1.—The famous Boyne obelisk which commemorated King William's victory of Drogheda was blown up yesterday.

THE BATTLE OF BLOOMING, June 4, 1917, at the Battle of the Marston.

**SEATTLE MAN TOPS
LIST AT ANNAPOLIS**

(BY A. P. NIGHT WIRE.)
ANNAPOLIS (Md.) June 1.—Seventeen of the more than 400 midshipmen of the senior class will be graduated from the Navy Academy on Thursday of next week with star ratings, that is, they received a mark of 45 per cent or better of the multiple for the entire four years course. This was determined today when the merit list was finally made up. The aggregate for the course is 480.

Kenneth McLaren of Seattle, Wash., will take first honors. A total of 148 "passed with credit," and the remainder were simply "passing," some getting through by small margins.

Hospitals were established in the fourth century.

**TWO BUCKET SHOPS
RAIDED IN CHICAGO**

INVESTIGATORS SUBPOENA
HEADS OF BROKERAGE
INSTITUTION

(EXCLUSIVE DISPATCH.)
CHICAGO, June 1.—Investigators from the State's Attorney's office today began a drive to clear Chicago of bucket shops, following the Jones and Baker failure in New York yesterday. Officers of M. L. Meyer & Co. and G. H. Milton & Co. were raided and it was announced that other brokerage houses were to be visited later. Subpoenas were issued for the heads of the two concerns raided.

At the same time, a rigid inquiry was begun into the affairs here of Jones and Baker, while the Federal Court was arranging to appoint a receiver for the Chicago branch of the concern. It is said Jones and Baker had 1500 customers in Chicago and liabilities amounting to \$2,000,000. Fred E. Hummel was chosen as receiver by Federal Judge Carpenter and took charge of the branch office at once. It is estimated by the police that forty bucket shops are operating in Chicago, but Samuel O. Rice, educational director of the Investment Bankers' Association, there are nearly 140.

The police figure 33 bucket shops have been closed since the investigation began. Strong efforts are being made to shut down the remaining bucket shops.

**SIXTY CARS CARRY
CANTALOUPE**

(BY A. P. NIGHT WIRE.)
CHICAGO, June 1.—More than 1,000,000 cantaloupes were way to market today in a solid train of the season's crop.

Imperial Valley, of California, moving on passenger-train cars, according to advice from the train was made up of refrigerator cars, and cars to be discharged at Kansas City, St. Paul and intermediate points. Chicago the train was to be run up for fast shipments to eastern cities.

LOS ANGELES SUNDAY

COUNTRY HOMES in GIRARD

Southern California's Newest Town
[2,000 Acres in Rich San Fernando Valley]

Just a few minutes by motor are the cool beaches of Santa Monica and Ocean Park—and picturesque mountain retreats with bubbling streams are scarcely more than a stone's throw away. Good schools are conveniently near; city conveniences are available.

The wonder is that a town was not built at this strategic point long ago—the natural gateway of the valley to the beaches and harbor, the intersection of Topanga Canyon Drive and Ventura State Highway—the main highway between Los Angeles and San Francisco. More traffic passes here than any other San Fernando Valley point.

The soil is unusually rich; the water supply is abundant and very low in cost; the prices are very reasonable.

Girard is backed by the same group of men who "made" Walnut Park.

PHOENIX URGES ROAD BUILDING

Highway From Springerville to Rice Asked

Co-operation of Indian Bureau is Needed

Angelenos Interested in Yuma Citrus Tract

[EXCLUSIVE DISPATCH]
PHOENIX, June 1.—The Phoenix Chamber of Commerce has presented to Gov. Hunt and State Engineer Goodman a petition urging that the road from Rice to Springerville be opened as a part of the State highway system and for a survey appropriation of \$4000 to match a similar sum offered by Gila county. The Governor is urged to obtain the co-operation of the Federal Bureau of Indian Affairs, for much of the road runs over the White Mountain Apache Reservation. The distance from Rice to Springerville is about 125 miles, of which about twenty-five miles are very bad going. "Black" paving will form a part of the highway through the Gila Valley, a contract for the second section of the road having been awarded to the El Paso Electric Company of El Paso on a bid of \$1000 less than that of the contractor on the first section, which is of concrete. There was protest from local residents, who wanted the concrete, even at the additional cost, and an appeal was made to Gov. Hunt. He answered that it looked to him "like another case of the cement trust trying to engineer a hold-up and being caught at it by the 'black' interests." The El Paso company bid \$191,741.

OPEN CITRUS TRACT
YUMA (Ariz.) June 1.—Eighteen Southern California residents have invested in the same number of ten-acre tracts on the Yuma Mesa, in Unit B, and thereon are developing 180 acres of citrus fruit. The syndicate includes R. A. Bishop, C. A. Smith and General Manager D. W. Fontaine of the Pacific Electric Railway Company of Los Angeles, Gerald Fitzgerald of the United Fruit Company, Frank Shoup of the Associated Oil Company, C. A. Johnson of the Holly Sugar Company of Huntington Beach and E. M. Clark of San Diego, all of whom were late visitors to the property.

LEAGUE STORES HEARING
FRESNCO (Ariz.) June 1.—In the United States court here on the 4th inst. is to be considered the last accounting and petition for distribution of Thomas W. Nealon, auxiliary receiver, all Arizona for the Pacific Co-operative League Stores.

The league stores were started at a number of California and Arizona points last year, under labor-union auspices, in an attempt to get lower living costs. The management, rather than the idea, appears to have been at fault. **FLAGSTAFF (Ariz.)** June 1.—Thomas Jones, 75 years of age, is in a hospital in Flagstaff, recovering from the breakage of a thighbone under unusual circumstances. He had started from Flagstaff on foot, headed for Wyoming, where he hoped to find employment with sheep. Twelve miles south of Lee's Ferry, while walking around at night to warm himself, he fell over a thirty-foot cliff. He managed to drag himself to his camp by the roadside, where he lay for several days and nights. All two mounted tourists on their way to the Colorado River heard his cries. They gave him water and then he broke his fast for he had not eaten for fear of the following third. I. G. Cookcroft, an employee of the Southern California Edison Company at Lee's Ferry, when advised of the old man's plight, went for him with a car and brought him to Flagstaff.

PLAN CO-OPERATIVE PRODUCE PURCHASES
CHICAGO GROCERS HAVE NEW PROPOSAL IN COMBATING CHAIN STORES

[EXCLUSIVE DISPATCH]
CHICAGO, June 1.—Paddling their own canoes through turbulent economic waters in competition with the Titanic chain store organizations has forced individual retail grocers to dig out a new channel through which they can bring in products from the producers and pass them on to the consumer.

Chicago grocers are laying plans to build a big central warehouse so they can buy eggs, butter, cheese, fruits, vegetables and other products direct from the farmer through his co-operative marketing organization and then pass them on to the individual retailers at cost, according to A. T. Dillon, secretary of the Retail Butcher and Grocers Association of Cook county. Officials of farmers organizations that are fostering the co-operative marketing movement among producers say they welcome the Chicago grocers' plan to organize a collective buying agency which both groups believe will eliminate the unnecessary tolls that are taken out from the time the product leaves the growers' hands until it reaches the retailer.

FORMOSA ROBBERS GIVEN ULTIMATUM
[BY CABLE—EXCLUSIVE DISPATCH]
TOKIO, June 1.—Wholesale blackmail, burglary and assault is said to be part of the stock in trade of a band of Formosan ruffians who have been ravaging various parts of the Keelung district for several months. The desperadoes are said to be armed with long swords. The police are making considerable efforts to destroy the gang. They have been given until the end of the month to surrender. After that date, according to announcements by the Japanese police in Formosa, they will be shot on sight.

**BUNKO LEADERS
GET LONG TERM**

Denver Million-Dollar Ring
is Sentenced

New Trial Denied; Brains of
Gang Hard Hit

Twenty Defendants, Con-
victed on Three Counts

(BY A. P. NIGHT WIRE.)
DENVER (Col.) June 1.—Nine-
teen members of Denver's so-called
\$1,000,000 bunko ring were sen-
tenced this afternoon by District
Judge George F. Dunklee in West
Side court after he had denied
them a new trial.

Eleven of the asserted bunko
men including Lou Blonger, the
brains of the band, were sentenced
to serve seven to ten years each on
two counts, the sentences to run
concurrently. The remaining eight
were sentenced to three to ten
years on two counts and another
three to ten years on the third
count. Their sentences also will
run concurrently.

AGED MAN

Blonger is 73 years of age.
Those who were sentenced to
serve from seven to ten years
were: Blonger, A. W. Duff, called
the first lieutenant of the con-
fidence men; Jack French of Cleve-
land, O.; A. B. Cooper, Little
Rock, Ark.; George (Tip) Belcher;
Thomas Beech; Steve J. Ole-
son; John H. Foster; A. E. Potts;
Robert C. Davis; George Walker;
G. H. Williams; Walter Byland;
Louis Mushnick; W. L. Straub, and
G. C. Butler.

Those sentenced to serve
from three to ten years were: Jack
Hardaway, John Allison and Wil-
liam Dougherty.

The jury had recommended leni-
ency for Hardaway, Allison and
Dougherty.

Grove Sullivan, convicted with
the others last March, was not sen-
tenced.

Dr. W. E. Phillips, appointed by
the court to investigate Sullivan's
mental condition, yesterday re-
was insane. It is probable Sullivan
will be given a jury trial to de-
termine whether he will go to an
asylum.

ON THREE COUNTS

The twenty defendants were con-
victed on three counts, charging
conspiracy to commit
confidence gaming and conspiracy
to commit grand larceny.

Under the law Judge Dunklee
could have imposed sentences rang-
ing from one to ten years in the
penitentiary.

The prosecution of the bunko
men attracted widespread atten-
tion throughout the country.

The twenty defendants were
found guilty March 28, last. The
trial lasted two months. Victims
of the band came to Denver from
different parts of the country and
testified to having lost from \$5000
to \$24,787 each. Many other vic-
tims did not attend the trial.

Much credit for tracing and
trapping of the confidence gang
was given by Dist. Atty. Van Cise
to J. Frank Norfleet of Hale Cen-
ter, Tex. Norfleet, previously a
victim of the confidence men,
spent two years in trailing the
leaders.

**MORTGAGE COMPANY
OFFICIALS INDICTED**

SAN FRANCISCO BROKERS ARE
ACCUSED OF SELLING
BOGUS SECURITIES

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, June 1.—In-
dictments charging a violation of
the State Corporate Securities Act
were returned to the Superior
Court today against Holmes Ives,
president, and four other officers
of the Bankers' Mortgage and Dis-
count Company of this city.

The bill of each man was set
at \$50,000 bonds or \$25,000 cash,
and bench warrants were issued
for their arrest. According to Com-
missioner Daugherty of the State
Corporation Department, they are
supposed to have unloaded thou-
sands of dollars in worthless se-
curities on investors here and
elsewhere.

Those charged with Ives are J.
J. Packard, vice-president; N. J.
Whalen, chairman of the board of
directors, and J. J. Eisenman, man-
ager of the company, and A.
Abrams, president of the Bankers'
Securities Company, a subsidiary
of the mortgage and discount com-
pany.

**STATE RICE GROWERS
RE-ELECT DIRECTORS**

(BY A. P. NIGHT WIRE.)
WILLOW, June 1.—E. E. Wil-
lard, C. L. Donohue, W. F. Bon-
durant and G. R. Freeman were
re-elected directors of the Califor-
nia Rice Growers' Association at a
meeting of the Glenn county as-
sociation here today. Ralph P. Mer-
ritt, general manager of the State
organization, submitted a report
which showed there were only
704,000 bags of rice on hand in
the State.

Merritt declared the rice grow-
ers had fared better during the
past year than most of the cereal
producers.

**CAMP KEARNY WILL
CONTINUE HOSPITAL**

(BY A. P. NIGHT WIRE.)
WASHINGTON, June 1.—Direc-
tor Hires of the Veterans' Bureau
formally announced today that the
bureau hospital at Camp Kearny,
Cal., would remain open, the op-
erators having agreed to renew the
lease at an annual rental offered
by the bureau of \$25,000.

The hospital at Arrowhead
Springs, Ariz., will remain open for
at least another year, it was an-
nounced.

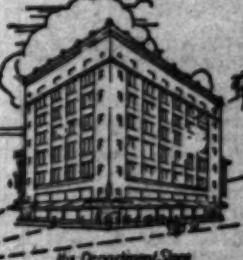

CAKE SENT BY PLANE

(BY A. P. NIGHT WIRE.)
PEORIA (Ill.) June 1.—Re-
ceiving a rush order this morn-
ing for a huge cake for a golden
wedding anniversary at which
there were to be 100 guests from
all over the country, a local bakery
sent the cake to Kewanee in an
airplane in time for the party.

PETE SALE starts Monday, June 4. Open at
art store, 525 South Hill.

5 Dinner Tables set for one reader

The Digest has the selling power that 1,300,000 good homes nat-
urally mean, and it has 2,000,000 women readers in these homes.

It has the dealer influence that 280,374 jobbers and retailers
exercise.

It has the moral influence that 359,757 professional men ex-
ert in their capacity as official advisers.

And more than that—a large percentage of its readers offers
multiple markets in many lines.

We know what our subscribers do, and not only what they
do, but what position they occupy in their respective
gainful occupations.

And because that position is so frequently a high one—owner,
officer or executive—such subscribers are a multiple market.
They are buyers, not only as home-owners and providers, but
also for business houses, factories and institutions. They have
a multiple buying personality.

For instance:

Mr. A, a stanch reader of The Digest, is one
of our 6,347 readers who are owners or ex-
ecutives of department stores.

Mr. A presumably has a good home. In
that home are set every day two tables—one
in the dining-room and one in the servants'
hall.

At Mr. A's store there is a public restau-
rant where his customers lunch. There is also
a private dining-room for Mr. A and his
associates. There is likewise a large lunch-
room for his sales-people.

Here are five tables set daily, some of them
for hundreds of covers, the buying for which
is dictated or influenced by the Mr. A's who
read The Digest—6,347 of them—and each

is a customer not only for food products, but
equally for furniture, china, glassware, silver
and table linen.

And all that potential market is reached by
a single copy of The Digest.

Moreover, if there is a grocery department
in Mr. A's department store, then he be-
comes a six-fold customer, a resale customer
for the same foods.

An extreme instance, naturally, but not an
impossible one, and true to some extent—
that is as to multiple buying-power—for 73% of
The Digest's total circulation are classed as
executives and include those who buy for
their factories, stores, and offices as well as for
their homes.

The Literary Digest

June 2d Number on Sale To-day at all News-stands, 10 cents

FUN from the PRESS

At your favorite picture theater to-night see Fun from the

and fruit grower.

DESSERTS FOR SUMMER

Frozen Dainties Most Suitable to Round Out Meals When Mercury is Climbing

It is a common saying that we "feel the heat more early in the summer than later when we are used to it." So it is important to arrange meals that will refresh and strengthen at the same time.

Cool desserts are among the most important features of the summer meals and a well-known domestic science teacher sends us these recipes:

GINGER MINT SHERBET
4 rounded tablespoons of finely cut mint leaves
4 lemons
4 cups sugar
1 1/2 cups water
1 1/2 cups heavy cream, for whipping
4 tablespoons of preserved ginger root ground fine.
Grate the rind from two of the lemons, and use in the sherbet. Slice oranges and lemons, very thin (remove seeds) and add to mint leaves. Put in an earthen pitcher. Let sugar and water boil together five minutes after adding rind. Remove from the fire and pour at once over the fruit and mint. Stand in a pan of ice water to cool.
When quite cold strain into

4 tablespoons grape juice.
Boil together for fifteen minutes the water and sugar. Take from the fire and set aside. When cold, add grapefruit juice, lemon juice, ginger extract, orange juice and grape juice. Strain and freeze slowly.

Serve heaped in the skins of the grapefruit, which, for that purpose have been kept perfect after having removed pulp and juice.

CHOCOLATE ICE CREAM
Two ounces chocolate, melted over hot water, with four tablespoons of sugar and same quantity of boiling water. Stir and cook until smooth. Cool, add to the junket ice cream and freeze as usual.

ALMOND ICE CREAM
2 1/2 blanched and chopped almonds
1 dozen pounded stale macaroons
1 teaspoon almond extract
3 lady fingers pounded
1 quart rich cream
1 cup sugar
1 tablespoon orange flower water
2 tablespoons of maraschino
Mix together the macaroons, chopped almonds and pounded lady fingers.
Scald two cups of the cream in a double boiler, add the sugar, stir until dissolved. Take from the fire, add remaining cream and set away until cold.
Then add the orange flower water and the maraschino and freeze. When frozen, remove the

dasher, and with a long handled wooden spoon work in the cake crumbs, prepared almonds and almond extract and pack away for two hours.

The American or Philadelphia ice cream has pure cream for its foundation. The French ice cream has usually eggs, corn starch, flour, gelatin, or some other materials to aid in thickening the milk.

CARE OF FREEZER
The care of the freezer is most important. It should be thoroughly washed in scalding water immediately after its contents have been removed. It then should be dried thoroughly before putting it away.

Take equal care of the freezing bucket. Put a drop or two of oil on the cog wheel every now and then, and your freezer will last many years.

The ice to be used in a freezer, should be pounded or ground fine. Always use the same rock salt, and for different mixtures, different proportions of ice and salt should be used.

For ordinary frozen creams and custards, use three parts of ice to one of salt, and have this all measured and ready at hand. You will soon learn just how much it will take for your particular freezer.

PLAN MOCK WEDDING TO AID HEROEES

Anna Q. Nilsson Will be Bride in Veterans' War Chest Benefit Affair

With Anna Q. Nilsson, film star, as bride, and with Lieut. Harry Watson of the Clover Field military aviation field, as groom, a mock marriage will be celebrated next Friday evening at the Ambassador for the benefit of the "war chest" of the Disabled American Veterans of the World War, Los Angeles Chapter No. 1.

The wedding ceremony, which will be performed by William Desmond, in the role of a gentleman of the clergy, will be a military affair, and the bride and groom will march through a line of steel bayonets immediately following the nuptials.

Wallace Reid, Jr., will act as ring-bearer, while Byron Sage and another juvenile film star, will be train-bearers. Jessie Fawcett has been named maid of honor for the ceremony.

Immediately after the mock marriage, a grand ball will be staged to which the public is invited. Lou St. Louis, celebrated pianist, will furnish the music for this event, which will follow a preliminary concert by the Los Angeles Boy Scout Band.

Twenty-four Southern California cities will send their prettiest girls to serve as bridesmaids at the elaborate wedding ceremony. The following communities have already appointed representatives who will participate in the event: Monterey, Margaret Bryn and Marion Haver; Pasadena, Janice McMurdo and Martha Reynolds; Glendale, Evelyn Hunt and Cilia Mae Fischer; Beverly Hills, Betty Hare Griggs and Barbara Wilson; Hollywood, Olive Page and Billie Clarke; Los Angeles, Dorothy Darling and Alice Darling; Eagle Rock, Moore and Mary McCune; Long Beach, Brownie McHenry, Leah McHenry and Jean Halbert, and Huntington Park, Dorothy Willis and Marian Grunwald.

Arrangements for the affair are being made by an executive committee headed by Mrs. Rodman Robeson, chairman, and Mrs. Daniel H. Thomson, chairman of the Big Sisters' League special committee, who is co-operating with the Disabled American Veterans' special representatives.

GOLF STAR WITNESS IN AUTO CASE

Woman Charges Driver on Boulevard Was Reckless; Trial Date Set

The case of N. M. McEwan, son of a wealthy Ocean Park contractor, who appeared before Justice Forbes yesterday on a charge of reckless driving, has been continued until the 9th inst. so that other witnesses may be heard.

The principal witnesses against McEwan yesterday were Mrs. Alice Tabor and Miss Ruth Killian, star feminine performer on the golf links.

It was charged by Mrs. Tabor that McEwan, driving recklessly and at great speed on Santa Monica Boulevard, crashed into her machine, damaging it. Miss Killian corroborated Mrs. Tabor. She stated she was driving in a direction opposite from that in which Mrs. Tabor was traveling when McEwan's machine flashed by her car and crashed into the other car.

Both women declared that at the time of the accident their machines were so close to each other that it was impossible for another car to pass between them but that McEwan disregarded the danger and as a result crashed into Mrs. Tabor's machine.

PLEADS GUILTY TO CHARGE OF ROBBERY

Ernest E. Murchy, accused of being one of a trio that held up and robbed Norman Smith and Marie Helwig last March, yesterday pleaded guilty to a charge of robbery, and his plea for probation was denied. Sentence was set for Tuesday by Judge Keetch.

Ernest Coons and Louis Rich, convicted of being two of the hold-up trio, already have been sent to San Quentin. The couple were robbed while they were sitting in an automobile in front of Miss Helwig's home.

Los Angeles Daily Times.

Hamburger's
ESTABLISHED 1881
STORE FOR MEN

---the hard facts of the matter are

that it lies within the Hamburger purchase power to buy the best clothes in the country—to stipulate the tailoring—to make standards ironclad—all of which results in better clothes at lower prices, for instance:

30 35 45
For Men's and Young Men's All-Wool Suits—
Sizes to Fit All Kinds of Men

—Offering the best the fabric markets afford in weave and color; finding these good, smart fabrics further enhanced by best tailoring.

—Another hard fact is this—that business is GOOD with us, more men are added to our lists every day—and men do not do things without a good, sound business reason, as a general rule. The reasons in this instance are value and quality UNSURPASSED.

Those Extra Trousers

Perhaps they are to be white flannels—perhaps just an odd pair to go with an extra coat—perhaps some in summer weight. We have:

Palm Beach Trousers Specially Good, 5.00
Palm Beach and Linen Knickers, Special, 5.00
White Flannel Trousers 8.00 to 13.50

Entire Stock of Spring Topcoats, 25% Less

For one day—and one day only—we offer you a choice of our entire stock of topcoats at this reduction. Just one way of making more room for summer stocks—and every man knows he has need of a topcoat twelve months in the year in California. Wonderful fabrics—splendid tailoring.

Continuing the Sale of Men's Nainsook Athletic Union Suits, 59c

—worth 1.00 by all value standards

Made of fine, durable nainsook! The kind a man would somehow know is good—the kind a woman would know POSITIVELY was well worth the regular price of 1.00. Because we could handle 5000 of them—and handle them quickly we gained a concession in price that we are proud to pass on to the men of Los Angeles—knowing that again we are making value-history in the way of men's underwear. All sizes 34 to 46—elastic insertion in back—A-1 values from any standpoint you take them—and a "knock-out" at 59c!

Also 4000 Men's Balbriggan Shirts and Drawers, 59c the Garment

For the man who prefers two-piece knitted undergarments (and there are thousands of them)—we have this value offering, that everyone may be included.

Very cool—absorbent—reinforced at the points of wear—quarter length sleeves and ankle length drawers. All sizes—and the same reason for the lowered price that governed the union suits. Regular 85c garment. (Hamburger's Store for Men—Main Floor)

Throng Attends Commencement at University

Hundreds of friends and parents of the graduating class at the University of California, Southern Branch, thronged Millsap Hall yesterday morning to witness the commencement exercises when 350 seniors were officially graduated from the institution. For the first time in the history of the school students were graduated who had taken a full four-year course.

A total of twenty-seven pupils, who enrolled four years ago, were handed their degrees of bachelor of education, while the remainder of the 350 were given certificates.

Dr. Ernest C. Moore, director of the Southern Branch, presented the diplomas and certificates, and addressed the outgoing class. Invocation was offered by Rev. Carl F. Patton of the First Congregational Church. The commencement address was delivered by Prof. John Adams of the University of London.

ARGUMENT DELAYS FEIGELMAN TRIAL

A long argument over whether the deposition of a man in Europe should be permitted took up much of the session yesterday in the case of Joe Feigelman, charged with picking the pockets of several men in Los Angeles street cars. Bernard O'Dell, one of the complaining witnesses, is in Europe, and attorneys for Feigelman held that his deposition was inadmissible. Judge Keetch will rule on the dispute Monday.

ELECTRIC POWER BONDS

These Bonds Are Urgently Needed Now

Of the \$35,000,000 bond issue, \$10,000,000 are needed now to make extensions to the distributing system in Los Angeles. \$25,000,000 are needed to construct and complete a 250,000 horsepower generating plant at the site of Boulder Canyon Dam, and transmission lines to Los Angeles.

These bonds are needed now so that Los Angeles can guarantee to Congress that it is ready to generate its share of Boulder Canyon power. Members of Congress and Federal officials have repeatedly pointed out that Congress will expect and demand an assurance that there is a market for the power available at Boulder Canyon before it will appropriate money for the construction of Boulder Canyon Dam. Congress convenes this December.

If Los Angeles wants to hasten the construction of Boulder Canyon Dam it must act now.

Not one penny of the proposed electric bond issue is to be used for the construction of any dam, anywhere. Boulder Dam will be built by the Federal Government, with Government funds.

But these bonds will stand as a guarantee to Congress that Los Angeles is ready to develop its share of Boulder Canyon Power.

The people of Imperial Valley, threatened with destruction by floods, are urging that these bonds be voted. They know that these bonds must be voted if Congress is to be induced to build the dam.

These electric power bonds will not cost the taxpayers one cent. They will be entirely repaid, with interest, from revenues derived from the sale of electric energy.

By voting these bonds the people will provide themselves with a large and urgently needed supply of electric energy, served at a low rate. This means more factories, more homes and more prosperity for Los Angeles.

If the bonds are not voted the city will be forced to buy a constantly increasing volume of electricity from private corporations, at a price more than twice the city's cost of production.

Proposition 6 has been endorsed by civic, business and labor organizations throughout Los Angeles, including the following:

- The Municipal League
- Power Users Association
- American Association of Engineers
- All City Employees Association of San Pedro
- Owensmouth Chamber of Commerce
- Greater Highland Park Improvement Association
- South Main Street Improvement Association
- Pacoima Chamber of Commerce
- Lincoln Heights Board of Trade
- Hyde Park Improvement Association
- Negro Protective Association of Los Angeles
- Hollywood Chamber of Commerce
- Central Labor Council
- Greater Los Angeles Improvement Council
- Southwest Realty Board
- Rose Hill Improvement Association
- Highland - Santa Monica Improvement Association
- Northwest Improvement Association
- Kiwanis Club of Van Nuys
- Glassell Park Improvement Association
- Reseda Chamber of Commerce

The Board of Directors of the Los Angeles Chamber of Commerce refused approval of the Boulder Canyon bonds after the City declined to accept the Edison Company's plan to have the City develop and handle Boulder Canyon power in partnership with the Edison Company. This plan had been submitted by the Edison Company and had been discussed at several meetings of the Chamber Board of Directors.

DEPARTMENT OF PUBLIC SERVICE CITY OF LOS ANGELES

WATERSHED IS PERILED BY FIRE

Starts at Mouth of Clover Leaf Canyon

do Heroic Work Combating Flames

Has Easy Prey Dry Forest

(LOCAL CORRESPONDENCE)

MONROVIA, June 1.—The Sierra Madre watershed below Wilson and Monrovia Peak was recently menaced this morning by a brush fire at the mouth of Clover Leaf Canyon got out of control.

Prompt action on the part of the fire department averted serious forest fire. Only smoldering acres of brush serve as a reminder of what might have happened.

The conflagration broke out at 10 o'clock after a pile of brush which was being burned for control and set fire to nearby brush. The flames spread rapidly up into Clover Leaf Canyon, just northwest of Monrovia.

It was the most serious in the area. Leaf is a residential area, there being almost a dozen country homes located there. The fire department was on its downward path to the flames when the fire department succeeded in extinguishing the flames. After the fire in the brush was put out, the flames were but half over as smoldering brush continued to ignite other brush.

The blazing mountainside smokes seen for twelve miles. Flames leaping fifty feet. The brush attracted hundreds of people who, under direction of Stevens, Police Officer Toledano and Constable James Gulderson, were pressed into service as firefighters. Tens of thousands of volunteer workers were guarding the smoldering brush.

Relative Son of Hanford, Kings Pioneer, Die

(LOCAL CORRESPONDENCE)

HANFORD, June 1.—One of the Native Sons of the City, Fredrick M. Parrish, died at the residence of his wife at the ranch of M. L. W. this city yesterday afternoon.

Mr. Parrish was born in 1864, and was nearly 60 years of age. He came to Los Angeles in 1878 and was one of the first to settle here. He was a member of the City of Los Angeles and was a member of the City of Los Angeles.

Has Easy Prey in
Dry Forest

MONROVIA, June 1.—The watersheds of the San Gabriel River and the San Joaquin River were threatened by a fire which started at the mouth of the Clever Leaf Canyon. The fire was caused by a lightning strike and it spread rapidly through the dry forest. The fire was fought by a party of men who were working on the watersheds. The fire was finally brought under control and the watersheds were saved.

ELECTION BOARD SHIVERING NOW

Heater Borrowed Last Year
Is Gone; Burbank Council
Asked to Pay Cost

MONROVIA, June 1.—The election board got cold feet last November and some one loaned the judge and the clerk two electric heaters. One disappeared. Now the charge for the lost heater has been presented to the City Council. The judge of the board, H. W. Roup, when presenting the bill at the Council meeting this week, said that another election is due next April and if that heater was not replaced by that time no doubt the board would have to perish with the cold if no one would feel like loaning another one to them.

Former Ontario City Manager Is Given Sentence

San Bernardino, June 1.—A new trial on his contention that an error of law had twice placed him in jeopardy before the courts. F. E. Alford, convicted ex-City Manager of Ontario, was today sentenced by Judge J. W. Mahon to serve from two to twenty years in San Quentin.

Alford's chief counsel, John L. Richardson, served verbal notice on Judge Mahon that the case will be carried to the California District Court of Appeals. Alford was held without bail, although Judge Mahon issued a writ of habeas corpus which permits Alford to be in the county jail pending the decision in the appeal.

Judge Mahon grouped the five counts on which Alford was found guilty. He was sentenced to serve from one to ten years on three counts and a like term on two counts. The sentences to run consecutively. Alford heard his sentence stoically.

During the court session, J. B. Draper, prominent local capitalist, telegraphed Judge Mahon that "He had resigned as one of Alford's bondsmen."

First June Bride
Married Under
Rubidoux Cross

RIVERSIDE, June 1.—Riverside county's first June bride of the year today enjoyed one of the most unusual ceremonies the city has known, performed at high noon on the topmost peak of Mount Rubidoux.

The bride was Miss Rachel Kimball, formerly of the Los Angeles area, and the groom was Ralph Wilson. Mr. Wilson, a retired minister living in Riverside, performed the ceremony in the presence of a few relatives and friends.

The wedding party went by automobile up the mountain to the end of the automobile road, and then walked to a point beneath the cross erected in memory of Father Serrano. The two stood in the shadow of the cross as the ceremony was performed.

Mr. and Mrs. Wilson went on a short honeymoon trip, and will make their home in Inglewood.

BOOTLEGGERS GIVES
JUDGE HIS CHANCE

POMONA, June 1.—Meeting out his first jail sentence since his present incumbency Judge E. H. Bowen today handed Ernest Sherer, local hip-pocket bootlegger, a sentence of ten days in the jail and a fine of \$100. When Sheriff and Constable Chambers presented evidence showing Sherer, who is a cook in a local cafe, had accumulated a considerable quantity of small amounts of assorted liquor but had made the mistake yesterday of selling three pint bottles of selling three pint bottles of rum from the office of the constable. He began serving the sentence immediately, declaring that he was through with his "possed friends for their ingratitude."

WELL-KNOWN OIL MAN
DIES AT SIERRA MADRE

SIERRA MADRE, June 1.—Charles Cameron, well-known oil man of Southern California, died at his home in Sierra Madre yesterday after a long illness. During the past few years Mr. Cameron had undergone thirteen operations for cancer.

He had resided in Sierra Madre for a number of years, being connected with an oil company in Southern California. He was a member of the Knights of Pythias and the Episcopal Church. He is survived by a sister, Mrs. Henry Long of this city.

ELLY SCHOOL BOARD

By a "Times" Staff Correspondent

PASADENA, June 1.—W. R. Litsberg and Robert A. Swink were elected to the Pasadena Board of Education without opposition today in an election featured by an extremely light vote. No other issues were voted on. They assume office July 1. Mr. Swink succeeds Clayton R. Taylor, who did not run for re-election. Mr. Litsberg is an incumbent serving the unexpired term of the late George R. Bickley.

STUDENTS ELECT AT REDLANDS

Fred B. Ford Chosen Head
of University Body by
Record Majority

REDLANDS, June 1.—Fred Bennett Ford of Strathmore was elected president of the Student Body Association of the University of Redlands for the first semester for next year, winning over his single opponent, Lawrence Cummings, by a large majority. The vote cast for Ford totaled 156, while Cummings received 51.

Ford's majority was the largest ever run up by a candidate for president of the student body. This is Fred Ford's fifth year at the university. His undergraduate work having been interrupted several times by illness. In 1922 he was a member of the eastern debate team.

Recently at Asilomar Ford was chosen president of the student council of the Y.M.C.A. for this district and in February he represented seven Pacific Coast States in a convention of the national student council held in the West.

San Diego Pastor Suggests
Whereabouts of the Man
Whose Securities Were
Found

SAN DIEGO, June 1.—Ludger Gadette, whose will and securities were found in a box at Los Angeles, formerly made his winter home in San Diego and is at present in the eastern part of the United States or Canada, according to W. M. Healy, minister of the Seventh Day Adventist church here.

Mr. and Mrs. Healy said they were close personal friends of Gadette. They said Gadette left their home two months ago to go to Arizona, Texas and Maine, where he has relatives and planned to return by way of Canada, reaching San Diego again in August or September.

Early in 1922 Gadette was a patient at the Paradise Valley Sanitarium for several months. It was learned at the sanitarium where he gave his San Diego address at that time as 1369 Second street, and said he was mining gold in the eastern part of the United States.

The minister contemplates writing the police at Los Angeles what he knows of Gadette and the probable time of his return to California, so the box of securities may be held for him.

RAISIN MEN
NAME BOARD
OF GROWERS

Returns From Twenty-five
Districts Give Choice New
Advisory Committee

FRESNO, June 1.—Returns from twenty-five out of twenty-nine districts throughout the raisin-growing sections of the State show the following were elected yesterday to the new advisory board of the Sun-Maid Raisin Growers: James P. Moseland, Fresno; W. T. Easton, Oxnard; N. K. Kilton, Dinuba; W. C. Picklin, Madera; R. H. Sparks, Tulare; L. D. Van Horn, Madera; Frank R. Reedy, Oxnard; Oscar Odate, Lemore; John T. Hajor, Houghs; J. H. Estes, Sanger; W. L. Griffin, Woodbridge; R. N. Kilton, Chowchilla; T. R. Magatagan, Clovis; J. A. Johnson, Kern; J. C. Coleman, Bakersfield; W. L. Hines, Santa Maria; W. P. Fowler, M. C. Rasmussen, Del Rey; H. B. Quick, Parlier; F. E. Barton, Orosi; Fred J. Anderson, Kingsburg; C. D. Dymally, Hanford; J. Wilson, Lindsay; H. V. Mellet, Delano; F. W. Brewster, Bakersfield.

Members of the new board, which will give the rank and file of the growers a more direct voice in the affairs of the association, will meet here the 15th inst. to organize.

The Fresno district, No. 9, the following were chosen for the local advisory council that will be a subsidiary to the main advisory council: J. A. Berven, W. H. Ferguson, G. R. Freeman, G. M. Karpell, E. D. Vogelmann, A. S. Perkins, J. W. Baker, M. Kallistien.

VALLEY RECORD SEEN
IN MELON SHIPMENTS

EL CENTRO, June 1.—Cantaloupe shipments from Imperial Valley are threatening to break all former records. More than 300 refrigerated cars were ordered for today's packing. Yesterday's total was 275. Today's shipments will boost the season's total to more than 1000 carloads, which is far ahead of any former year.

FOUR MORE ARE ARRESTED

HANFORD, June 1.—Four more arrests have grown out of the burglary of the Pacific Coast Hotel in this city when seven gallons of alcohol and eighteen boxes of cigars were stolen and sold at auction. The four arrested are: Mrs. Lillian Kellner, mother of Jack Wood, 15 years of age, accused with another boy of the robbery, has had four more arrests in and near Hanford arrested on charges of contributing to the delinquency of a minor. The mother asserts they bought some of the stolen alcohol from the boy.

EMPLOYEES GET RAISE

LONG BEACH, June 1.—The howling of the wolf at the door of Long Beach city employees was lower gas rates here. The present rates are double those charged in other counties. The reason given for this is that there are few industries here and much less gas is used. It was also stated that the gas here is of a better quality. The gas company representatives will present a report in the near future and no further steps will be taken until that time.

CONFERENCE ON GAS RATE

OXNARD, June 1.—A meeting of the presidents of the chambers of commerce of Ventura county at Santa Paula yesterday discussed lower gas rates here. The present rates are double those charged in other counties. The reason given for this is that there are few industries here and much less gas is used. It was also stated that the gas here is of a better quality. The gas company representatives will present a report in the near future and no further steps will be taken until that time.

WOOD WILL SPEAK

OXNARD, June 1.—Will C. Wood, State Superintendent of Public Instruction, will be commencement speaker this year at the graduation exercises of the Oxnard Union High School. Thursday evening, the 7th inst. at the school at 8 o'clock. The class consists of thirty-eight graduates, with Bernice Blackstock as valedictorian, and Ethel Haydock, salutatorian.

WOMAN IN PIPE LINE ROW SUES

Asks Damages of \$5500 and
Gets Injunction

Went to Jail Last Week to
Serve Out Fine

Her Trial With Associates is
Set for July 16

ORANGE, June 1.—Exchanging the gun with which she kept a thirty-two-hour vigil over a disputed pipeline in Harding Canyon, near here, for more passive, but equally forceful weapons, Mrs. Virginia L. Cookson today resorted to court action in what she termed a personal damage suit. Filed suit in Superior Court, Santa Ana, for \$5500 damages together with a plea for an injunction to restrain Mann from interfering with the pipeline.

In addition, Mrs. Cookson, through her counsel, W. E. Menon, Santa Ana attorney, is preparing a personal damage suit in connection with her arrest at the instigation of Mann on a charge of trespass and her subsequent imprisonment in the County Jail for several hours.

This suit, she intimated, will be filed within a few days. Mrs. Cookson, thoroughly aroused over Mann's asserted actions in the face of a contract giving her permission to construct the line across the Modjeska property, plans a bitter fight for her rights, she stated.

When she appeared to file the injunction suit Mrs. Cookson displayed the contract, a temporary injunction restraining Mann and his associates from disconnecting the pipeline. The suit was granted by Superior Judge R. Y. Williams pending a hearing to show cause why the injunction should not be made permanent.

WENT TO JAIL

The woman, who was arrested about a week ago on the trespass charge and went to jail rather than pay a fine, was released on \$5000 bond. The men, who were held with her, were released several hours behind the bars. Her trial has been fixed for July 16.

Robert E. Laughton and Frank Mattingly, her employees, who are accused jointly with her in the coming trial will have their hearing at the same time. The men, who worked side by side with Mrs. Cookson in laying the pipe line, were arraigned at the County Jail yesterday.

Justice Cox, during the proceedings Justice Cox jokingly inquired whether they wanted to spend at least one night in jail. Mattingly replied:

"Judge, I'll gladly go to jail if you grant me one thing first—that is that I allowed to whip Mann the first time I see him."

Mrs. Cookson is the wife of W. M. Cookson, former Los Angeles postal inspector.

Santa Monica
Moves to Get
Sewage System

By a "Times" Staff Correspondent

SANTA MONICA, June 1.—This city this morning took the initiative toward forming the first county sanitary district under the terms of an Assembly bill signed by Gov. Richardson last Tuesday.

Commissioner Carter moved that Santa Monica at once propose to other cities of the Bay District and to the Board of County Supervisors to determine the plan for district sewage disposal that will protect the beach and provide proper solution of the sewage problem of all the cities within the district.

The proceedings devised for the new law call for a formal application from the cities in conference to the Board of County Supervisors to establish a sanitary district that shall bear the expense of any plan of sewage disposal adopted. The law, Mr. Carter stated, provides for the inclusion of both incorporated and unincorporated territory within the district.

It is proposed to invite every city in the Bay District, south and including Redondo Beach, to join in the conference over the plan and also to request Los Angeles to co-operate in the general project.

AGED WOMAN VICTIM

Mrs. Elizabeth Garcia, 81, by Auto Five Months Ago, Dies

POMONA, June 1.—Lacking only three years of reaching the century mark, Mrs. Elizabeth Garcia, 81, died yesterday at her home in this city. She was the widow of the late Capt. Jose Garcia, who owned and operated the first steamship line along the Pacific Coast, died last night at San Gabriel where she was taken from the Los Angeles County Hospital a few days ago. Five months ago Mrs. Garcia, down by an unidentified motorist, receiving serious injuries from which she never recovered. Immediately after the accident she was removed to the local hospital and later taken to the county institution. She had no relatives.

Her long life Mrs. Garcia knew both great wealth and extreme poverty, the latter since the death of her husband. Funeral services will be held Saturday afternoon at the Dabrow and Cipriani chapel. The Masons will have charge of the service. Dr. J. Hudson, pastor of the First Presbyterian Church, will assist at the services. Burial will be in Pomona Cemetery.

SMOCK TAKES CHARGE

LONG BEACH, June 1.—R. Walter Smock today assumed the duties of the recently created office of general freight and passenger agent of the Union Pacific Railway at Long Beach. Both freight and passenger agents are defined, the new office being that of supervisor with duties formerly administered from the Los Angeles office of the railway.

WILL SPEAK

OXNARD, June 1.—Will C. Wood, State Superintendent of Public Instruction, will be commencement speaker this year at the graduation exercises of the Oxnard Union High School. Thursday evening, the 7th inst. at the school at 8 o'clock. The class consists of thirty-eight graduates, with Bernice Blackstock as valedictorian, and Ethel Haydock, salutatorian.

INVALID MOTHER ENDS OWN LIFE

Seven Children Survive as
Woman Shoots Self

Finds Loaded Gun Left by
Police Officer

Despondent Over Health and
Care of Tots

By a "Times" Staff Correspondent

LONG BEACH, June 1.—Fate that led Police Officer F. L. Morrison to leave his loaded pistol in a cupboard in a Long Beach apartment-house while he was busy with an off-duty job of painting for a neighbor today proved a tragic opportunity for a sick and despondent mother of seven young children to snuff out her own life, according to police.

FIRE'S FOUR SHOTS

Mrs. Frank S. Du Puy, 41 years of age, living in Wilmington was the victim of the fatal union of impulse and opportunity. Her body was found by Officer Morrison on the top of the staircase in an apartment occupied by Mrs. Marian Moore, 1187 Cedar avenue, by whom the officer was employed for the painting job.

One shot from Officer Morrison's gun had gone through her brain while three had pierced her body. According to police, Mrs. Du Puy for some time had been ill, overburdened in her condition with the care of her seven children. Three of the children had been sent to her parents back East to keep until she was better. The stress of caring for the four, according to police, had caused her to come to Long Beach in the hopes that Mrs. Moore, a trained nurse, would care for the children until the mother recovered.

NOTICES REVOLVED

While waiting in Mrs. Moore's apartment, the despondent woman noticed the loaded revolver in an upstairs room, police believe. A sudden desire to "take a little rest" by the light of the pistol overwhelmed her and, in her abnormal condition of mind, caused her to pull the trigger, the last of which was fatal.

Police yesterday were endeavoring to locate the husband, who was said to be employed in Wilmington. Funeral arrangements are being held up pending word from the husband, police said.

No inquest has been ordered, but police said that the woman who killed herself with the officer's pistol in a fit of despondency.

Last Honors
Paid to Former
Cattle Queen

PORTERVILLE, June 1.—Mrs. L. J. Carver, former "cattle queen" of the San Joaquin, pioneer citizen of Linn Valley, Kern county, with large live-stock and financial interests in Tulare county, who died Tuesday in Los Angeles at the home of her daughter, Mrs. Anna Hovey, 2248 S. Main street, was buried in the family plot in Linn Valley, following funeral at the old home this afternoon.

Mrs. Carver was 54 years of age and for nearly half a century resided on the mountain homestead in Linn Valley. As "cattle queen" of the San Joaquin, she was one of the most picturesque and romantic figures of early days in this section of the state. She leaves three daughters and one son.

SECRETARIES TO MEET

Delegates from 150 Towns Are to Gather at Monrovia Today

LOCAL CORRESPONDENT

MONROVIA, June 1.—Representatives of 150 municipalities of the eight southern counties of California will convene in Monrovia today for the annual meeting of the Secretaries' Association of Southern California. The association will conduct its annual meeting as guests of the Monrovia Chamber of Commerce.

A program has been planned, including among the speakers will be Howard J. Wisenbaugh, analytical and economic engineer; Theodor Dillion, assistant chairman of the western railway presidents' committee; and S. F. Marsh of the service organization department, Los Angeles Chamber of Commerce.

The morning session begins at 10:30 o'clock. Luncheon at Hotel Eleven Oaks will be served at noon. Following the afternoon program and discussion there will be the annual election of officers. Lynne Ballard of Long Beach is president of the organization and Charles F. Bayer secretary.

PLAN TRADE TRIP

OXNARD, June 1.—A group of 100 business men from Los Angeles will make a trade excursion through Oxnard and Ventura counties. The excursion had been planned before the one San Franciscans, but the latter made their trip before the people of the Southland. The excursionists will visit the same territory covered by the northerners. They will be in Oxnard June 11 and will be entertained in this city on June 12.

HIGH QUALITY APPLE CROP

HUNTINGTON PARK, June 1.—"While the apple crop will not be large, the quality of the fruit will be much better," said John A. Menck of Tulacpa, who resides on one of a large orchard in that territory. He states that there are 8000 acres of fruit orchards in the valley consisting of apples, peaches and cherries, and the territory has increased its business interests heavily in recent years.

DEATHS
With Personal Announcements.
AT 8:00 P.M. June 1, William J. Miller, 54 years old, of 1215 North Main street, died of heart failure.
AT 10:00 P.M. June 1, Mrs. Mary E. Miller, 54 years old, of 1215 North Main street, died of heart failure.
AT 11:00 P.M. June 1, Mrs. Mary E. Miller, 54 years old, of 1215 North Main street, died of heart failure.

BOB SHULER ALSO QUILTS MR. OXNAM
Radical Activities of the School Board Candidate Too Much for Him
Rev. Bob Shuler, president of the Methodist Church, and until yesterday one of the warmest supporters of G. Bromley Oxnam, radical candidate for the Board of Education, yesterday notified Mr. Oxnam that he is withdrawing his support of Mr. Oxnam's candidacy and will do all he can to undo the effect produced by his work to date in Mr. Oxnam's behalf.

ABANDON HOPE FOR BARKENTINE
Loss of Four-Masted Alta Deep Mystery
Vessel Dropped From Sight in February
No Hope Held for Crew; Storm Thought to Blame
In forty years only two ships sailing the Pacific have disappeared without trace or wreckage to mark their loss. The first of these was the old whaling ship Jeannette. She sailed from San Francisco for the Arctic in the early spring of 1881 and was not heard from again. This morning 103 days have passed since the four-masted steel barkentine Alta, one of the proudest of all Pacific windjammers, left Los Angeles Harbor for Bellingham.

POWER BOND DEFEATED IN STRAW VOTE
Joint Technical Society Decides Against Proposed Issue, Two to One
The John R. Haynes-W. B. Mathews-Los Angeles Examiner \$25,000,000 power bond issue will go down to defeat by more than a two-to-one vote, next Tuesday if a straw vote taken at Thursday's annual meeting of the Joint Technical Society is an indication.

STILL BLAST WRECKS HOUSE
Bootleggers Flee as Explosion Sets Home Afire; Mash, Bottles of Whisky Are Found
A terrific explosion on the upper floor of a two-story frame house at 715 Bernal street yesterday put a sudden and complete stop to the activities of two moonshiners and bootleggers, who are being sought by police today.

BOULEVARD ZONE MOVE DEFEATED
Fifty Wilshire Residents Block Attempt to Permit Apartment Building
Confronted with fifty or more rate residents of Wilshire Boulevard district between Bronson street and St. Andrews Boulevard, petitioners to have this district changed from Zone A to Zone B met defeat at the hands of the Zoning Commission yesterday afternoon.

MAN KILLED BY DEPUTY IN RAID
Victim Shot Down After He Draws Revolver
Officers Had Found Wine in Room of Home
Italians Start Attack, but Are Subdued
Attempting to resist arrest, Nicola Paterantano was killed yesterday afternoon in his home in the hills two miles east of Burbank by officers under Constable Thomas who were conducting a liquor raid.

ONE DEAD, TWO INJURED IN FIRE
Warehouse Watchman Burns to Death
Storehouse, Garage Lost Part on Incendiarism
Fire Chief Is Overcome by Smoke
One man was burned to death, two firemen were taken to the Receiving Hospital in a serious condition and Fire Chief Scott was overcome by smoke and flame in a spectacular blaze which broke out at about the same hour destroyed thirteen automobiles and a garage with a loss of about \$100,000.

PIONEER WOMAN CALIFORNIAN IS TAKEN BY DEATH
Mrs. Mary Theresa Stevens, 74 years of age, one of the older generation of California pioneers, died yesterday at her home, 927 East Fifty-fourth street.

COLLECTIVE MOTHERHOOD

Through the Parent-Teacher Association in Los Angeles a noble work has been accomplished during the last year. Children of the poor have been nourished, clothed and provided with necessary medical attention. Through these associations many children have been enabled to attend school that, otherwise, would have lost the benefits of a primary education. The burden of many a mother has been lightened. Tender young shoots have been tended by the hands of a knowing and loving gardener.

In the parent-teacher movement has found a concrete expression of the collective spirit of motherhood. What a inspiring spectacle for those who realize that the future of our city and our country will be what the children now in the schools make it!

No other influence in nature impels so binding, so loving a tie as that which unites the mother and the child. In this influence the sordid never enters; nor is there a place for selfish impulse. The mother gives all that she has. Motherhood is a symbol of unselfish service.

Through the parent-teacher associations the world gets its first glimpse of the wholesome influence that can be exerted by collective motherhood. Los Angeles becomes a loving-mother that spreads her arms to enfold all her children. All are equal. Her heart is great enough for a corner for even the tiniest among them.

What a consolation there comes to the heart and the spirit of the mother who finds it hard to provide even the bare necessities for her little brood to know that the kindly eye of collective motherhood is peering through the window of her bare room and that a kindly hand will be extended through the door!

Mothers know what the children need; know the influences that help and those that ban. If the mother's influence can follow the child through the primary grades a new spirit will be infused into public education. We have had too many instances of late which tend to show that many of the teachers are more interested in their own salaries, which might be termed school-board politics, than in the welfare of the children under their charge.

They have been victimized by propaganda of false ideals. They have become ambitious to do great things in a political way; and their hearts have not been altogether with the little children intrusted to their care.

But the mothers will not be deceived. They know the material things that are necessary for the children; and they know the spiritual influences that tend to loosen the home ties.

This parent-teacher movement is the antithesis of Socialism; for the Socialists would tear the child from the mother's side; just as soon as it no longer feeds at her breast, and place it in a public institution. The Socialists hold that home influences are harmful, that they must be broken at the earliest possible moment.

But the basic idea of the parent-teacher movement is that the home influence is the most important thing in American life; that it must not be restricted, but extended; that mother-love is almost the only remaining hope for the ultimate salvation of humanity. In place of separating the child from the mother's influence when it reaches school age that influence is to accompany it in the classroom. The mothers would know more concerning the training of their children.

That extended field leads to collective motherhood. The mother that is in a position to extend aid to the mother who has not. She who has half a dozen dresses for one child now gives at least one of them to the mother who has two children and but a single dress.

This is not an exaggeration of actual conditions. Among the needy cases investigated was one in which two sisters attended school but half a day each. One wore the bly presentable dress the household possessed in the morning and the other in the afternoon.

The Times on Thursday morning appeared a report of what the parent-teacher associations had accomplished during the year. It tells of the collection of about \$25,000 in cash through this greater motherhood movement and its expenditures for milk and for food. The collection and distribution of clothes and other supplies represent a much greater expenditure.

But more was done. Through the parent-teacher movement hundreds of women became aware of history that existed, all the more bitter because it was carefully concealed. They found a way to carry a part of the burden that was crushing the shoulders of another mother. Certain of the women's clubs adopted schools in the districts where the needy reside; and there was a glass of milk for every child and sandwiches for those who came with lunch baskets unfilled.

That was more than the milk of human kindness; it was the milk of motherhood. To some well-intended reforms. The Times is compelled to sound a note of warning; for, in doing a little good, they open the way for a great wrong. But the Times indorses without reservation this movement for the extension of the influence of home and motherhood exemplified by the parent-teacher associations. The Times has an abiding respect for the wisdom of the motherhood of Los Angeles.

A Correspondence Course Won't Do It

must be constructed over the Los Angeles River to end grade-crossing delays and hazards and to replace the present outworn, inadequate bridges. Recreational centers and playgrounds must be provided.

Now all of these improvements are projects which the city government must do. No one else can put them through. It is the work of the city government and must be financed through bonds authorized by the voters. A start on these needed public improvements is provided for under five bond issues which appear on next Tuesday's ballot and all of the issues can be approved and there will still be left an unmet bonding capacity for the city of \$23,500,000 for emergencies. An unused bonding capacity of less than this amount would be unsafe.

The \$25,000,000 power-bond issue comes entirely in a different class than the public-improvement-bond issues, for it calls for the expenditure of Los Angeles public money and the taxing of the city's bonding capacity for a project that the Federal government, the southwestern States and communities, the utility corporations could severally or jointly carry out. The \$25,000,000 power-bond plan is a proprietary business enterprise, for which the city is asked to tap its dangerously low bonding capacity at the expense of the public improvements which the Los Angeles city government must carry out and which no one else can do.

A second strong argument against the \$25,000,000 power bonds, which will appeal to every business man and woman, is the indefiniteness of the proposition put forward by the municipal Power Bureau. The sum of \$25,000,000 is asked for "the construction or acquisition of works for the development of electric energy from the waters of the Colorado River at or in the vicinity of Boulder Canyon." Nothing is said as to whether the Federal government or the city is to build the plant, what the capacity will be, whether it is to be spent for an all-Los Angeles plant or as part payment on plants to serve the entire Southwest. Nothing is said as to whether the city is to hand over the \$25,000,000 to the Federal government and if the money is to be given to the government, upon what terms and under what conditions. The Power Bureau, in this bond issue, is simply in the position of asking for a blank check.

The \$25,000,000 power-bond issue on next Tuesday's ballot, then, practically exhausts the city's bonding capacity and prevents the building of great necessary public improvements, which the city and no one else can build. Furthermore, the bond issue is unsound and unbusinesslike because it is vague and indefinite. It is very probable that these two facts played an important part in the reaching of a decision by the directors of the Los Angeles Chamber of Commerce who desired their support to Proposition No. 6 at next Tuesday's election. The directors stated that they could not give their approval to the \$25,000,000 to be devoted to the Boulder Canyon scheme, although holding that extensions to the existing system are necessary. But as the two parts of the Power Bureau's request for more money are linked together in one \$25,000,000 bond issue, the effect of the action of the directors of the Chamber of Commerce, who are all practical, successful business men, is to withhold the support of the administration of the Chamber of Commerce from the Power Bureau's proposition on next Tuesday's ballot.

DAMAGED REPUTATIONS

Get a pedigree with your antiques. Sir Joseph Duveen, an antiquarian of world standing, is being sued for \$500,000 by George DeMotte, a prominent New York dealer in antiques and art objects. DeMotte says that his reputation has been damaged to that extent by the aspersions which Sir Joseph cast upon the character of a virgin he had sold to a New York millionaire. The virgin was represented to be a glorious creation of Limoges enamel of the thirteenth century and was said to have been the special delight of Queen Isabella. That royal lady and patron of Columbus was said to have borne this of Columbus with her on all her journeys. Because of its own great beauty and its historical association this bit of art brought a very high price. But the price has not been fully paid. The millionaire who purchased it has since died and the hard-boiled executor of his will, after hearing the opinion of Sir Joseph, declined to carry out the purchase. Sir Joseph did not exactly say that the statuette was made in Pittsburgh, but he did declare that it was a counterfeit and he thought he could put his hands on the artist who created it. But DeMotte, who is a lessee of Huntington property in New York, insists that the virgin is as historically pure as he had represented and it will take half a million dollars to save the reputations damaged by the careless words of a Duveen. The trial is awaited with interest by collectors and would be quite thrilling if Sir Joseph carried out his threat of producing the artist who created what he still insists is a counterfeit.

Here comes the June bride.

Now for June, the marrying month. Even the young people ought to have a chance.

One of the local baseball teams has been strengthened by the purchase of two new men. Why so few?

These are the beautiful nights when a man who is single and out of debt ought to be able to sleep soundly.

How would you like to be a candidate for a seat in the Egyptian Assembly? There are 4000 candidates fighting for 400 seats.

A lot of folks who are complaining about the high cost of living are arranging to attend the Dempsey-Gibbons fight at Shelby, Mont.

It is one of the most amusing sights in the world to see a bachelor hold a baby. It is a scream if the baby should happen to be about 13.

A number of hats are already in the Democratic Presidential ring, but it will be necessary to put a brick in many of them to keep them there.

A New York banker died the other day and the obituary notices of him said that in a career of fifteen years he had never made a bad loan. Some banker, say we.

It is said that the rattlesnakes down in Arizona are not showing any fight this summer, to the astonishment of the snake-hunters. But there are other objections to the "varmint."

One disadvantage of living in the neighborhood of a filling station is the fact that close-by residents are likely to be disturbed when the yeggs call to make their collection.

And there is another question that must be settled soon. In case of an eastern cities schoolgirls are beginning to wear knickerbockers. The parents do not object, but the teachers do. Three cheers for the teachers.

Farmers in the Middle West are likely to get a good price for the wheat they raise this season. In Kansas, Nebraska and the North-west thousands of acres usually devoted to wheat have been abandoned and other crops put in. In addition, the usual crop troubles are also ahead. The law of supply and demand is certain to mean better figures for those who do raise wheat.

THIS IS THE DAY

In the year 1851 the Maine Legislature adopted and the Governor, William G. Crosby, approved an act to prohibit drinking shops and tipping shops. Thus Maine was the first prohibition State and corroborates the saying, "as Maine goes the country goes."

Gen. Robert E. Lee took command of the Confederate army of Northern Virginia in the year 1862. He relieved Gen. Joseph E. Johnston, who had been wounded at the battle of Fair Oaks. Lee continued in command of the army throughout the Civil War, though Jefferson Davis was nominally commander-in-chief.

MEN IN THE NEWS

BY RANDOLPH LEIGH

An Honored American; A College President; The Solicitor-General.

Donald Shaw MacLaughlin, etcher and portrait painter, who is hailed by several European critics as America's greatest artist since Whistler, has recently been accorded the honor of being elected a member of the salon of the Societe Nationale des Beaux Arts.

Few, indeed, have been the foreigners to receive such recognition at the hands of the cultural leaders of France, and only rarely has that honor fallen to an American.

MacLaughlin, whose exhibits at the San Francisco Exposition won him the gold medal among etchers, has been making rapid strides in recent years toward an international reputation as a portrait painter, as well as an etcher.

His work during the last winter in painting many of the notables in the French capital has called general attention to a talent already highly valued in the smaller circles of those who were in touch with the most worthwhile creative artists.

Americans will be interested in the fact that MacLaughlin, who has not been in this country for at least twenty years, will lead in New York within a few weeks. In the late autumn he expects to reach Los Angeles.

MacLaughlin's advent to this section will be of special significance because, as one who has already shown himself a genius at interpreting the moods and charms of a portion of Italy which in many ways closely resembles our Southland, he is admirably fitted to portray the latest spirit of Southern California.

For many years MacLaughlin has had a villa in Rome, that gem spot in the Italian hills which received worldwide fame because Browning spent so much of his time there and carried much of his beauty over into his verse.

In recent years, with the spread of MacLaughlin's fame, Asolo has become again the mecca for those who wish to visit the scenes which have inspired great works of art.

Nicholas Murray Butler, president of Columbia University and one of the most gifted of American publicists, is now in England delivering the Watson lectures. These lectures, which will be given before the leading English universities, will acquaint Englishmen better than ever before with the early period of our history as a nation and with the man who played the largest part in the creation of our institutions.

In addition, the lectures will place special emphasis on those features in our system of government which set it apart not only from the continental systems, but from that of England as well.

Few developments in the lecture sphere have been so striking than those in the months indicating the changing attitude toward American mental institutions on the part of foreigners and our own people.

Henry F. Davidson's essay just takes steps to make a number of scholarships for American youth at American universities, reversing or reciprocating Rhodes scholarship plan. It is not given to the belief that we here in America have a uniquely worth-while system of government and type of education that they deserve a study that has heretofore been given them.

It is well that, in this time of growing interest in the institutions which make up the life of a nation, Butler can speak for us in great British seats of learning. He is perhaps the ablest exponent of our institutions in the world, and that they deserve a study that has heretofore been given them.

Another indication of the long desire abroad for authentic information concerning our government is the fact that a special session of the American Society for the Study of the Constitution of the United States has just been held in Paris and in London.

This book is the outgrowth of a series of lectures which the Honorable General of the United States has just been given at Gray's Inn. It was held in this country by Deane, who had a deservedly good sale.

It is reported that it will be brought over in German and Russian. Certainly, these are right now badly in need of genuine understanding of meaning and value of representative, constitutional government. In this connection, the ed of the proposal which E. Praxinger, then occupied important advisory post in connection with the peace movement made when statesmen sought to express alarm at the general menace in Central Europe.

That shrewd Chicagoan, with by the way, now lives in London, has been given the best things to do would be a swarm of lectures on American ideals and institutions. In English at this remedy would be to the world.

Now it works out that the cause which our leaders without cause they thought America would not want it is the cause for which they are diametrically opposed.

FOR BUILDERS ONLY

BY LEE SHIFFEY

In the "place" between the northern entrance to La Madeleine, in Paris, is a statue imposing even in that city of many imposing monuments. Perhaps 100 times, waiting on the opposite corner for a tram, I saw it without noticing it, but one day, there being no tram in sight, I strolled over to learn who that soldier or statesman it honored—and found it was a tribute to the discoverer of quinine!

I've never been fond of quinine, even though born in the malaria belt. It's an acquired taste, like highballs, and I suppose I moved away too young to become addicted to it as some of my forebears were. As a boy I'd often longed to whip the man who discovered it, but the idea of erecting a great monument to him was somewhat novel to me. Yet it was striking that monument to a man who had saved millions of lives and diminished human suffering in a place from which Babe Ruth could knock a ball to perhaps treble the number to men who were remembered because they had brought war, death, destruction and misery on peaceful peoples.

That's all about Paris. The other day I read what had been a dining shack, an eyesore, in a suburban town. It had been renovated and transformed. And then I remembered the discoverer of quinine and the thought came that we build most of our monuments to the wrong people.

Where is there a monument to the man who invented house paint? Imperious Caesar never did half as much for humanity.

Where is there a monument to the inventor of sanitary plumbing? The engineer who first worked out a sewer system? The scientist who traced the spread of terrible plagues to mosquitoes and rats? What martial conqueror deserves so much from humanity?

Where is there a monument to the inventor of motion pictures? Of automobiles? Of soap? Of washing machines? Of gas stoves? Of safety pins? Of hose supports? Of union suits? Of campfires? Of reinforced concrete? Of elevators? Of pianos? Of ice machines? Of filters? Of fly swatters? Of a thousand other things which make life safer, happier, more peaceful?

Think what machines—moving and all the rest—have done for the world. Yet I can think of only one machine-builder who has been honored by an imposing public monument in his native city. Jim Fendermacher, who owned a string of saloons and political leaders in Kansas City, was the exception—and Jim's was a political machine.

Really, should adopt a new rule about putting folks on pedestals. Those who build, instruct, beautify, develop and defend for the welfare of the public should be given first choice there. It is time to perpetuate the memory of the discoverers of quinine, the Napoleons—what have they ever done to help us?

Monuments for upbuilders only—that's the idea.

PRACTICAL RECIPES

Helps for Recipes and All Who Appreciate Good Cooking

These recipes are selected from the best of the Times' cookery column, and are given in full, with all the details of preparation, so that they can be followed without any further explanation. They are given in full, with all the details of preparation, so that they can be followed without any further explanation.

By Chef A. L. Wyman, M. C. A. The housekeeper who compares plates making fruit jellies this year

will save money by bottling her fruit juices as the fruits come in season and making her jellies in the winter months. The present high price of sugar causes jelly-making to be expensive at this time. The juice of cherries, plums, currants, blackberries, grapes, raspberries and apples can all be extracted and stored in bottles and will keep for months in a cool dark place.

SQUAB EN CASSEOLE
R. G. M. City, is to serve a dinner for a June bride and wants to serve squabs en casserole for twelve. She has four squabs that will hold about three squabs each and she asks that we tell her to prepare three squabs. Place three well-cleaned squabs in a buttered casserole with one tablespoon of butter and a seasoning of salt and pepper; cover and roast in the oven for ten minutes or until a nice light brown. Add one tablespoon of chopped onion, two fresh or canned button mushrooms,

cut in dice, and four tablespoons of chopped lean bacon; cover and cook ten minutes. Sprinkle over the squabs two level teaspoons of flour, add one cup of meat gravy or brown stock and three tablespoons of strained orange juice. Cover and let simmer in the oven for ten minutes. Tie a napkin around the casserole and serve.

TROUT BAKED IN CREAM
T. L. A. City, has a husband who brings home trout for her to cook and tells her of new ways that he has tasted them. One way was baked in cream. She asks that we give directions for making this dish.

Clean six trout, season with salt and pepper, dip in milk and then three well-cleaned squabs in a buttered casserole with one tablespoon of butter and a seasoning of salt and pepper; cover and roast in the oven for ten minutes or until a nice light brown. Add one tablespoon of chopped onion, two fresh or canned button mushrooms,

to twelve minutes. Place the baking dish on a platter covered with a folded napkin and garnish with half-slices of lemon.

PEPPER POT
F. M. City, is very fond of soups and asks that we give recipes for a thick soup made with red beans and a genuine Philadelphia pepper pot.

The day before the pepper pot is wanted place in a soup pot a well-cleaned quart of veal, three quarts of cold water, one bay leaf, three branches of parsley, one sliced onion, and two stalks of celery. Bring slowly to a boil and simmer for four hours. Strain and set in a cool place over night. Remove the fat from the stock and place in a kettle, add two medium-sized potatoes peeled and cut in dice, one pound of cooked tripe cut in half-inch squares, one bay leaf, two teaspoons of finely chopped parsley, and the chopped meat from the veal knuckle with fat and gristle removed. Bring to a boil and cook until the potatoes are tender. Thicken the soup with two level teaspoons of flour and two level teaspoons of corn starch mixed smooth with a little cold water. Before cooking the soup make a dough of half a cup of finely chopped onion, one cup of sifted flour, one-quarter of a teaspoon of salt, and enough cold water to make it stiff enough to roll out. Cut in small squares and boil in the soup twenty minutes. Season the soup with salt and cayenne pepper.

MOCHA CAKE
E. F. Eagle Rock, requests that we give recipes for mocha cake and French toast.

For the mocha cake, beat until light and creamy the yolks of four eggs and one cup of sugar; when very light, add one cup of sifted flour, sifted with one teaspoon of baking powder, beat well, add one tablespoon of coffee essence and beat again. Fold in the stiffly beaten whites of the four eggs. Pour into two large deep layer cake tins and bake in a moderate oven. When cold, spread between the layers one cup of sweetened whipped cream and cover top and sides with a frosting made by adding to one stiffly beaten egg white one and a half cups of sifted confectioner's sugar and two tablespoons of coffee essence.

MEXICAN BEAN SOUP
Rub two cups of well-cooked red beans through a colander, place in a saucepan and add three cups of sweet milk, a teaspoon of grated onion, and a seasoning of salt and pepper. Bring to a boil and serve on plates sprinkled with finely chopped hard-boiled egg and two thin slices of lemon.

BAKED HAM
A. E. G. City, has tasted some delicious baked hams and never has been able to bake one at home like them. She asks that we give directions that will help. She thinks that The Times Cook Book is wonderful.

Place a ham in a large kettle, cover with cold water, add half a cup of vinegar and let stand over night. Remove ham, wipe clean, place in a boiler, skin side up, cover with cold water, put over a slow fire, and bring gradually to a boil. Boil quickly for two hours and then boil slowly for two or three hours, according to the size of the ham. Let the ham cool in the water. When cold, carefully remove the skin and stick around the edge and through center with a sharp knife. Press into the fat a mixture of grated stale bread crumbs and brown sugar. Place in a baking pan and bake in a moderate oven, forty minutes, basting often with one cup of cider or sherry substitute mixed with half a cup of brown sugar. Good hot or cold.

POTATO SALAD
E. J. R. City, says that her husband is very fond of a potato salad that is sold by the delicatessen stores of New York City and asks that we tell her how to prepare it.

Wash and boil until tender five medium-sized potatoes and allow to become thoroughly cold. Peel, cut in one-half inch cubes, and thinly slice crosswise. Place in cold bowl that has been rubbed with a clove of garlic, cover with a good French dressing and stand in a cold place over night. When needed drain off the French dressing and mix with six tablespoons of mayonnaise dressing, one tablespoon of finely chopped parsley and three stalks of peeled tender white celery cut in dice. Mound on lettuce-covered plates and sprinkle over capers and chopped pickled beets.

WELSH RABBIT
R. C. F. Hollywood, would like the recipe for Welsh rabbit that we made at the National Food Exposition in San Francisco seven years ago.

Place in a double boiler two level tablespoons of butter and when it is melted, add one pound of finely chopped American cream cheese. As the cheese starts to melt stir one way with fork until nearly melted, add one teaspoon of Worcestershire sauce, stir and add the yolk of two eggs, beaten with one teaspoon of English mustard and one teaspoon of Worcestershire sauce. Stir constantly, and when smooth, add two tablespoons of butter, stir, add a seasoning of salt and paprika, and just before serving stir in the stiffly beaten whites of two eggs. Pour over squares of toasted bread on hot plates.

ORANGE MARMALADE
S. T. T. Long Beach, asks for a recipe for orange and pineapple marmalade as made by a former resident of Long Beach and wants to know the name of the best book

of recipes for using California fruits. By writing to the California Fruit Growers, Los Angeles; the California Walnut Growers, Los Angeles; Sun-Maid Raisin Growers, Fresno; Peach and Fig Growers, Fresno; and the Prune and Apricot Growers, San Jose, and sending her address she can obtain a collection of the best recipes that we know of for using California fruits and they will cost nothing. The Times Prize Recipe Book contains many good recipes for the use of California products.

For the orange and pineapple marmalade place in a bowl six thin slices of thin-skinned oranges, rejecting all seeds; three cups of chopped pineapple flesh and three-quarters of a pound of sugar to each pound of fruit. Let stand over night in a cold place. Cook slowly for one hour and rub through a coarse sieve or colander with a wooden potato masher. Return to the fire and cook thirty minutes or until clear and a little thick. Pack in clean jars, seal and store in a cool dark place.

DEVILLED SAUCE
Place in a saucepan two tablespoons of vinegar, one chopped clove of garlic, and one tablespoon of chopped mild onion. Reduce until nearly dry. Add one cup of tomato sauce and half a cup of meat gravy and cook at a boil for ten minutes. Add a teaspoon of dry mustard mixed with two teaspoons of Worcestershire sauce, a pinch of cayenne pepper, one tablespoon of orange juice, and two tablespoons of butter. Boil up once and strain through a sieve.

of cayenne pepper, and enough Worcestershire sauce to make a paste. Cover both sides of the chops with this mixture, dip them in fine bread crumbs, then in melted butter, place in a pan, and brown in a medium oven. Serve on a mound of mashed potatoes and garnish with strips of broiled bacon and sprays of parsley. Pour over a little devilled sauce.

DEVILLED SAUCE
Place in a saucepan two tablespoons of vinegar, one chopped clove of garlic, and one tablespoon of chopped mild onion. Reduce until nearly dry. Add one cup of tomato sauce and half a cup of meat gravy and cook at a boil for ten minutes. Add a teaspoon of dry mustard mixed with two teaspoons of Worcestershire sauce, a pinch of cayenne pepper, one tablespoon of orange juice, and two tablespoons of butter. Boil up once and strain through a sieve.

Library Bonds Get Additional Indorsements

Added to the organization indorsing the library site bond issue to be voted on the 5th inst., yesterday were the Alliance of Social Agencies, comprising seventy-three bodies, and the Hollywood Chamber of Commerce.

The alliance is composed of organizations such as the T.W.C.A., Salvation Army, Jewish Aid Society and the California Federation of Women's Clubs.

May J. Workman, secretary and treasurer of the alliance, yesterday explained the indorsement with the following statement:

"We stand full force back of the library bond issue because it is important that the library be protected against these environmental restrictions which will mar its architectural influence and which will hamper its future development. Los Angeles needs generous civic planning compatible with its great destiny."

The indorsement of the Hollywood chamber's board of directors was given at a meeting May 27 last.

Park Officials Indorse Bonds for Playground

The proposed bond issue for more playgrounds was strongly indorsed yesterday by the Board of Park Commissioners, in the passage of the following resolution:

Whereas the Board of Playground Commissioners of the city of Los Angeles has been successful in placing a bond issue upon the ballot to be voted upon the 5th inst. And whereas, it is essential to the best interests and welfare of the community that said bond issue be carried, in order to provide necessary playground facilities. Therefore be it resolved, that the Board of Park Commissioners of the city of Los Angeles does hereby indorse the playground bond issue and lends every possible support to the successful passage of same.

LIE PEELED PEACHES
A. H. L. Monrovia, wants to know how to lie-peeled peaches for canning.

Only firm, perfect peaches should be peeled by this method. Make a boiling solution of one gallon of water and four tablespoons of concentrated lye and drop the peaches into it for twenty-five seconds; lift out, and drop into clear, boiling water for twenty seconds. Place them in clear, cold water and the skins will slip off easily.

To peel peaches that are not firm dip them in boiling water for one minute or until the skins slip easily, remove and place in clear, cold water and slip off the skins.

TRILOBE SAUCE
E. R. Santa Monica, would like a recipe for trilobe sauce as served on sweetbreads by one of the local cafes.

Place in a double boiler the yolks of four eggs, the strained juice of one lemon and a pinch of red pepper. Add a small part, half a cup of melted butter and stir until it starts to thicken. Add gradually the balance of the half a cup of melted butter and stir constantly with a wire whip. While adding the butter, add four tablespoons of orange juice or four tablespoons of sherry wine subside.

DEVILLED LAMB CHOPS
E. N. City, wants to know how to prepare the English devilled lamb chops.

Broil six thick lamb chops nearly done. Mix four level tablespoons of English mustard, a pinch

Just try a bottle of Universal White Kid Shoe Cleaner. It's the shoe whitening you should use yourself, and teach the kiddies to get in the habit of applying. Why it's the finest thing ever. It preserves leather, too, never yellowing, and keeps it soft and white, at the same time removing spots and even grime. Sends you and your outfit in the morning with a "finished look." Utility shoes we know denote slovenliness, and that would never do. Universal Polish is simply "epicurean." All better shoes and stores will think of it. Many dealers will have in consideration the expense of their home furnishings; it being the good fortune of too few of us to be given a gift of a shoe when buying for the love shoe, and yet, do you know, if a girl is at all clever she can buy the most inexpensive sort of unpainted breakfast-room style, even bedroom furniture, and with "Waterproof" enamel which comes in the very newest colors and is waterproof (an added feature), when finished will be not only beautiful, but of greater value. For Watersprings, the waterproof varnish wears like iron. Why not write or phone the Patton-Pittsford Division, 824 S. Main (181-23) and get all the particulars as well as the name of the nearest dealer selling "Waterproof"?

Install Antrol around your house and in your grounds and you have a system which not only gets rid of the destructive, annoying ants at once, but continues to prevent them from disturbing you next year. For this contains in which Antrol is placed are practical, durable and highly recommended. Why not get in touch with the Ant Control Company, 3032 West Tenth, at once. Phone: Willsie 418 or write for an estimate.

Have you ever tried Fish or oysters in Castriello Brothers' Olive Oil? Yum, yum, but it does give both a delicious flavor which no other brand or oil substitutes can impart. And do you know Castriello Brothers' Pure Olive Oil is so remarkably fine for cooking as well as salads, that notices in domestic science should never experiment with any other brand, thereby risking the disapproval of their new husbands. Better grocers can supply you with any size can.

Mrs. Newby, if you will stand for five minutes in the boiling water, before putting in cake, you will find that they will not sink to the bottom. Once more all thoughts are centered on the bride, for this is the month of June, the magical, glorious month of roses and wedding during which time we bend every effort toward helping some one's "bridesmaid" to make her domestic duties which are so full of care and happy as possible. While King Washing Machine hops in the granite floor, going to be one of the biggest factors of all. It makes all kinds of cleaning simple as A B C. Buy the big box. It's far more economical. White King softens water, leaves your hands white and soft. Your neighborhood grocer sells White King Washing Machine Soap.

Stripes of adhesive plaster are sometimes used for labels on cans and bottles. A dairy must be decided upon. Madame Housewife, which can be depended upon to leave each morning the best fresh milk and cream bottled. If you will allow the L. A. Creamery to serve you, you will soon learn that their milk and cream is wonderfully rich, absolutely dependable, carefully bottled under the most exacting conditions, and never varies. As the continued good health of your husband as well as yourself depends greatly upon the dairy products you use, take the precaution now to engage the L. A.

When you put your cake in the oven remember that greater heat is required for layer than for loaf cake. Mrs. "Newly-wed" stands by L. A. Cottage Cheese, for many and many a time it comes to the rescue when unsuspected callers drop in. "Would be a breach of hospitality not to have some little thing to eat when a 'few' days ahead to be sure of getting what you want." Cause Hughes Ice Cream is "most dreadfully" popular.

When in doubt—go to Mora's, the grill par excellence, which is found in the truly interesting part of old Los Angeles, namely, 107 W. Market street, one-half square south of the postoffice. Such delicious food they serve. The moment you taste it you'll know that Mr. Mora himself selects and supervises the actual cooking of everything which gives it that epicurean zest. Why not dine there tonight?

OLD DUDS MATINEE IS PLANNED

Film Will Aid Salvation Army Relief

Two Who Will Benefit

It is in readiness for the Old Clothes Matinee, which Jackie Coogan and the management of Loew's State Theater will conduct for the Salvation Army next Tuesday morning. There will be half a dozen army lassies on hand to receive the bundles of old clothes that will be turned in. The same time softening the hard water and making the soap lather freely and fast. Indeed, Du Mott's Crystal Ball Crystal is a skin tonic, relieving fatigue almost instantly. They induce sleep when used in the bath before retiring, and invigorate one in the morning. As they are most inexpensive—just 11¢ a bottle—why not try a carton? Write for a sample to Du Mott, 120 West Ninth. 44441. No charge is made for mailing or delivering.

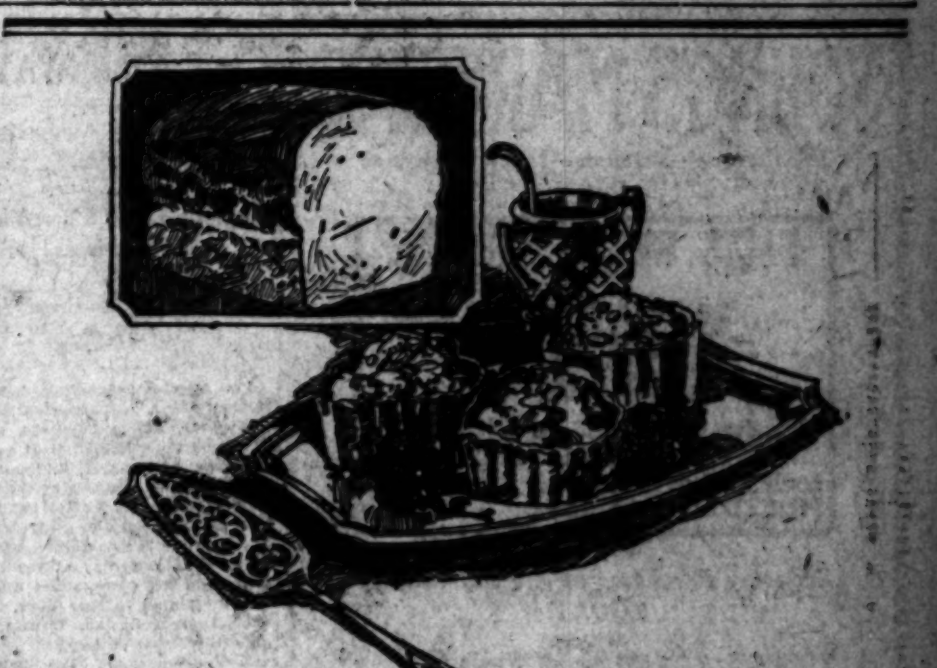

If you want your mahogany dining table to acquire a beautiful polish rub it with a rag dipped in "Waterproof" enamel which comes in the very newest colors and is waterproof (an added feature), when finished will be not only beautiful, but of greater value. For Watersprings, the waterproof varnish wears like iron. Why not write or phone the Patton-Pittsford Division, 824 S. Main (181-23) and get all the particulars as well as the name of the nearest dealer selling "Waterproof"?

There are going to be lots of problems concerning housekeeping which will puzzle the little bride. One will be how to do the general cleaning, at silverware, perhaps woodwork, windows and the thousand and one other general problems which arise. Bobrick's Genuine Cloudy Ammonia is especially adapted for all of these things. It contains nine separate ingredients all of which are cleaners. When buying, see that your grocer sends you Bobrick's, however, and accept no substitutes for the others are not just as good.

A cork is much better than a cloth for scouring steel knives. Stick it in your scouring powder and rub it briskly over the metal surface. It will clean as well as polish, and will save your hands, too. It would almost be a desecration if the new ice box, so white and shining and clean, were treated with indifference and permitted to hold anything but "Frozen Steam." Begin housekeeping with the firm determination to keep the standard of your home high. "Frozen Steam" will do it. This product, made and sold exclusively by the Merchants Ice and Cold Storage Co., is frozen from arctic snow, after it has been raised to the intense heat of 450 degrees above zero. This removes all germs and impurities, prevents it from melting fast and leaves your ice box clean. You may phone, Main 1842, or 10142, and leave a request to call.

What every woman knows (if she keeps house) is that the kitchen is a hot or muggy so often needs a coat of paint and enamel to keep them looking fresh and clean. What most of them do not know, but will find out soon if they be quick at grasping important suggestions, is that Frederick O'Brien's "Wedgewood" paint and enamel are perfectly ideal for the purpose. These excellent wearing qualities are no trick at all to put on and not excessive in cost. Make sure your dealer gives you that "Wedgewood" brand, though, won't you? An excellent way of "spoiling" the usual with variety is to serve Hughes Ice Cream cakes. An afternoon shower for a bride calls for the preparation of something light and dainty and as Hughes Ice Cream is such a favorite with every one because of its real cream taste and smooth, easy-to-eat appeal—why then, little sponge cake cakes scooped out, then filled with, say, fresh peach ice cream, would cause much favorable comment. There are innumerable Hughes dealers all over the city. The yellow and white sign is the way you can locate them. Give your order to them a few days ahead to be sure of getting what you want. Cause Hughes Ice Cream is "most dreadfully" popular.

When in doubt—go to Mora's, the grill par excellence, which is found in the truly interesting part of old Los Angeles, namely, 107 W. Market street, one-half square south of the postoffice. Such delicious food they serve. The moment you taste it you'll know that Mr. Mora himself selects and supervises the actual cooking of everything which gives it that epicurean zest. Why not dine there tonight?

Health Protection in Bread

PERHAPS you never dreamed that so commonplace a food as good bread could contain so many of the elements that create energy, safeguard vitality and promote health. HOLSUM—scientifically-made bread—bears a supply of calcium, iron, phosphorus and other mineral salts that, with an ordinary diet, furnishes the balanced ration that spells health and well-being. HOLSUM bread is rich in health-giving qualities. No single food contains so many. And it is good, so wholesome, so appetizing! Serve it freely and keep fit. Serve this delicious recipe for afternoon tea:

Deviled Shrimps
1 1/2 pounds cooked shrimp meat
1/2 teaspoon each salt and
1/2 teaspoon each Worcestershire
sauce
1 egg
3 tablespoons cream
Mix all thoroughly; butter individual ramequins or scallop
shells and fill with mixture. Bake in hot oven fifteen minutes.

Cudahy's Puritan is an Unusual Bacon

NO royal personage, no epicure, can boast a better bacon for tomorrow's breakfast than you can if you insist on Puritan when you order. For Puritan, remember, is deliciously mild, yet piquant because it's ripened naturally.

Rich flavor, however, is not Puritan's only pride. It is tender young meat, closer trimmed, and has a low moisture content. Thus you gain economy too, while you buy Puritan for its unusually delicious flavor. Sold in the piece or sliced in pound and half-pound cartons.

PLEA MADE FOR CITY SUBWAYS

Osborne Gives Comparison With East

Congestion Here Worse Than Other Places

Plan Advanced to Break Jam of Traffic

Los Angeles is woefully behind eastern cities in possessing wide boulevards, public buildings, subways and the elimination of grade crossings, declared H. Z. Osborne, formerly chief engineer of the Los Angeles Board of Public Utilities, in speaking to the executive committee of the Traffic Commission at its meeting yesterday at the Athletic Club his observations during his recent visit to New York, Chicago, Detroit, Boston, Washington and other large cities.

The necessity of Los Angeles putting through these public improvements, including a union passenger railroad depot, was strongly urged by Mr. Osborne, who said: "Each of the large cities considered the local traffic congestion of that particular city the worst in the nation. Beyond question, each city is suffering acutely, but I have yet to see in any city of the United States a worse condition than we have right here in Los Angeles, with one exception. From a check I had made while chief engineer of the Board of Public Utilities, it was found that more pedestrians crossed the intersection of Fifth and Broadway, during a four-hour period, than the intersection of Fifth and Broadway and Forty-second street, New York.

HUMAN TRAFFIC
"A greater number of vehicles, however, cross New York's busy intersection. More human traffic is handled at Fifth and Broadway than at any other intersection in the United States, as far as I am able to ascertain.

"The street cars are crowded in all the large cities, especially during the rush hours. Los Angeles must modestly take second place as to crowded street-car conditions during the rush hour.

"New York, Chicago, Detroit, Boston and the other cities relieve themselves of traffic congestion in the main by eliminating parking in the congested district. By building subways and elevated railroads and roadways, by one-way traffic streets, by opening up wide traffic entries, by building tunnels, by separating the grades of the streets, by rerouting car lines and busses to eliminate duplicate service, by routing traffic around the congested area, and by other minor devices.

"The most worthwhile methods of securing permanent relief are found in the building of subways and the widening of streets. Chicago finds a no-parking period in the morning between 7 and 10 a.m. to be advantageous, as well as similar periods in the afternoon. This prevents the needless introduction of the 'all-day parker' in the congested district, and enables the making of commercial deliveries.

"Los Angeles is woefully behind the other cities in the wide boulevards, in civic buildings, in the elimination of grade crossings and in the lack of subways.

"The necessity of having these improvements, the necessity of having a union terminal, is brought forcibly to the minds of each one who visits the cities of the East.

ON RIGHT TRACK
"Los Angeles is on the right track in its endeavor to secure a unification of its transportation facilities. Los Angeles will also be on the right track in adopting the Los Angeles Plan of the Traffic Commission, with the step-by-step program of the Community Development Association.

"Los Angeles also settled the

BRANCH STAYS IN HOLLYWOOD

Governor's Approval of Bill Authorizing Purchase Insurance Additions

The University of California, Southern Branch, will remain in Hollywood, it was announced yesterday when it became known that Gov. Richardson had affixed his signature to Senate bill No. 227, which provides for the purchase of additional land adjoining the university campus for a consideration of \$150,000.

The land which will be purchased under the new law is between Monroe street and Melrose avenue on Vermont avenue and is said to have more than doubled in value since the taking of an option by State officials.

bus question along the lines generally accepted in eastern cities, i.e., that bus lines should serve as feeders, as developers of new territory, as an expedient to give temporary public utility service and to furnish necessary auxiliary service.

"Consideration should be given to the plan of making Eighth street and Tenth street and certain other streets one-way traffic arteries.

"I also believe able of safety should be placed on our downtown streets. For a trial, temporary platforms, similar to those used in Washington, might be installed. After this is done the traffic in the autos to travel from north to south, as experience may determine feasible, similar to the plan of Fifth avenue in New York.

KEATON IS RELEASED BY JUDGE
Producer Was Charged With Violating Law on Advertising

Harry Keaton, producer of Keaton Comics, arrested on May 31 for alleged violation of the city ordinance relating to advertising, was released yesterday when his case was called in Police Judge Crawford's court. He had been at liberty on bail.

Shortly before Keaton's arrest a policeman made a report to Chief Oaks in which he asserted that a number of agencies were advertising in newspapers and in motion pictures. Applicants were urged at the agencies to take a course in make-up for which from \$20 to \$50 was charged.

After the dismissal of his case yesterday, Keaton asserted that he was a motion picture producer and has produced one two-reel comedy. He has a contract, he said, whereby he is to make two other comedies for a San Francisco release. In addition to being the star in the comedies, he says he directs the making of the pictures.

While working with his case yesterday, Keaton asserted that he was a motion picture producer and has produced one two-reel comedy. He has a contract, he said, whereby he is to make two other comedies for a San Francisco release. In addition to being the star in the comedies, he says he directs the making of the pictures.

NORTH END SITE URGED IN MEETING

Resolution in Favor of Civic Center Passed by Vermont-Beverly Directors

The Vermont-Beverly Association, at a recent meeting of its board of directors, passed the following resolution:

Be it resolved that the Vermont-Beverly Association place itself on record as endorsing the location of the administrative center as recommended by the City Planning Commission and approved by Mayor Cryer, and that a copy of these resolutions be sent to the City Council and to the press.

This association has made a study of the locations for a civic center and believes because of the estimated and continued growth of what will ultimately constitute the great metropolitan city of greater Los Angeles, which will include several of the adjacent, now existing municipalities, that it would be a serious mistake to have the City Hall, disassociated from the County Court-house and Hall of Records, and the greatest benefit for the city as a whole, can only be attained by grouping the various county and city buildings in one compact administrative center, and as pointed out by the City Planning Commission, this can only be arranged at the site which they have chosen, so we therefore urge all improvement associations to endorse this most acceptable and economic program for the site and location of a modern administrative center.

PORT BONDS ARE BACKED BY McCURT

Vice-President of Financial Concern Warns Shipping May be Diverted

Robert L. McCurt, vice-president of one of the largest of the city's financial concerns, is urging all interested in the development of Los Angeles to support the harbor bonds project at the coming election.

The Chamber of Commerce is sponsor for the recent movement for a bond appropriation of \$15,000,000 for harbor improvements, to relieve present congested conditions and to make way for the even greater volume of business which is to come to the harbor.

"Panama Canal was built for us," says Mr. McCurt. "The government offered us an opportunity on a gold platter. We're everything at the harbor excepting ships. And we need more room, for even now the shipments coming into the harbor are congested things so terribly that unless we make room for an added volume of business we'll find a lot of the business being diverted to other ports."

Better Building Exposition Is to Open Monday

Many modern wrinkles in building construction will be shown next week in the second annual Better Building Show, which opens at the Metropolitan Building at 10 a.m. Monday and continues all week.

Seventeen different kinds of walls, eight different kinds of roofs, model kitchens, model bathrooms, modern methods of insulating and of fireproofing, heaters and water heaters of all kinds, paints, stains and varnishes, electric household devices and many other things will be in the display. It is declared the exhibition will compare favorably with any that has ever been shown, even at world's fairs.

WIFE OF CAREWE OBTAINS DIVORCE

Mrs. Mary Jane Fox

Jay J. Fox, known in pictures as Edwin Carewe, lost his wife yesterday when Mrs. Mary Jane Fox obtained a divorce before Judge Summerfield in Superior Court.

It was over 21 and as do as I please," Mrs. Fox testified her husband told her when she protested against his absented late hours. She declared he told her he did not care for her, and that he did not want to be tied down to domestic life. He stayed out nights, she said, and paid little attention to her or to his home. They have two children.

A property settlement was made out of court, it was said by Attorney Milton Cohen, who represented Mrs. Fox. His details were not disclosed.

TUNNEL DAMAGE TEST SUIT IS WON BY CITY

TAXPAYER LOSER FIGHT AGAINST ASSESSMENT INCURRED BY BOMB

Assessment on taxpayers for damage caused by municipal tunnel construction was upheld yesterday by the State Supreme Court in affirming the lower court judgment against D. C. Barber of Los Angeles, who was assessed \$12.38 on damages arising out of the construction of the Second-street tunnel, but refused to pay on the ground that such payment was not provided by the statutes.

The suit was a test case and involved \$12.38 in damages for assessments on this tunnel alone.

CREAMY WHEAT BREAD

A REAL BREAD FLAVOR

NEW POLICE SUBSTATION FUND URGED

City Council Asked for \$20,000 With Which to Equip Department

A petition asking for \$20,000 with which to furnish and equip twenty-four additional police substations to be established in fire houses, was filed with the City Council yesterday afternoon by Richard H. Hill, Acting Chief of Police, in the absence of Chief Oaks.

The recent action of the Budget Committee in giving Chief Oaks permission to establish these stations and in allowing him forty-eight automobiles to be stationed in them, made no provision for further equipment, repairs and alterations.

FLASHES

PEGGY PEGS ALONG

NEETER WILL DIRECT BABY IN

"EDITHA'S BURGLAR"

By Grace Kingley

While most little ones these days

are saying good-bye to their teachers

and looking forward to vacation,

Baby Peggy, the little Juliet

of the film, is just getting ready

to say hello to hers. Or at least

to her new director.

This new director who will

henceforth, for the next few weeks

at least, teach Peggy's young idea

how to shoot, coincidentally with

the cameraman's shooting, is Wil-

liam Selzer, who directed "The

Little Church Around the Corner"

and other successful features.

The picture which Baby Peggy

will make under direction of Sel-

zer is to be a special, made for

Universal, and is to be a film ver-

sion of Frances Hodgson Burnett's

child story, "Editha's Burglar."

Work will commence about June

15. Ray Schrock adapted the story

to the screen.

Paul Swan Opens School

Because a lot of people who have

seen Paul Swan dance have been

inspired to want to be able to do

likewise, that disciple of Terpsich-

ore is going to open a studio

next week at 731 West Jefferson

street, in connection with the stu-

dio of St. Rita Benda. Instruction

in the pantomime and interpreta-

tive work for which Mr. Swan is

well known will be given.

Murray En Route

From that joyous soul, Charlie

Murray, comes word that he is

shortly to join the Hollywood film

colony once more. And he says he

Ann Little

Serial star will begin work on new

chapter thriller, in which Fred

Thompson will be co-featured.

"Grandmother writes me she will

do it if I do not return home; she

is 75, and I know she means it."

Although the picture is beautiful

and achieves a splendid climax,

these efforts have not been com-

plished, according to the every-

day American standard. The hero

is not exactly the type of extraor-

dinary physical prowess on the con-

trary he is just a rather aver-

age peasant type. The heroine

is not exactly the type of extraor-

dinary physical prowess on the con-

trary he is just a rather aver-

age peasant type. The heroine

Little Theater

Films Offers

"Mortal Clay"

The love for that which is in-

ately artistic and of dramatic

worth, has caused a group of mo-

tion-picture actors, directors and

writers to form an organization

called "Little Theater Films."

The project took its first really ac-

tive step Thursday night at the Writ-

ers' Club, when "Mortal Clay," di-

rected by Victor Heastrom, was shown.

This picture was made in Swed-

en. It is one of the most unique

films that has been shown here. It

is simple in its theme and direct in

its development. There is no coun-

ter theme, hence the plot is never

delayed or retarded. As with all

great works of the story it particu-

larly impresses because it

moves along positively and with

conviction to an effective climax.

The story has to do with the

medieval custom of the "ordal of

fire." Innocence, according to the

barbaric practice, was established

by the ability of the accused to go

unscathed by fire. The love story

is one of simple love and faith.

Although the picture is beautiful

and achieves a splendid climax,

these efforts have not been com-

plished, according to the every-

day American standard. The hero

is not exactly the type of extraor-

dinary physical prowess on the con-

trary he is just a rather aver-

age peasant type. The heroine

is not exactly the type of extraor-

dinary physical prowess on the con-

trary he is just a rather aver-

age peasant type. The heroine

dinary physical prowess on the con-

SHOW WHALE TO

SCHOOL CHILDREN

So that the school children of

Los Angeles may have an oppor-

tunity to see the whale that acted

in the movies, Jack Root, manager

of the Mission Theater, has ar-

ranged special performances of

"Down to the Sea in Ships" for

them today. At 11 a. m. and until

1 p. m. school children will be ad-

mitted for 10 cents.

The whale is a reflection of American life

in New England in the '40s—that

part of the nation woefully neg-

lected in the historical excitement

of the great gold rush to Califor-

nia—"Down to the Sea in Ships"

is seen as an invaluable document

by educators.

POSTOFFICE GARAGE

NOW ON EAST THIRD

The postoffice garage, that has

been located at 313 New High

street, since December, 1915, was

removed Thursday to 713 East

Third street, adjoining the new

terminal station.

The garage has a ground-floor

space of 44,000 square feet, the

largest in the city on one floor, and

it is being held under a twenty-

year lease at the rate of \$15,750 a

year. The old garage on New

High street cost the government

\$1000 a year for the first five

years of the life of the contract.

The latter figure will not be paid

in the removal, the government pay-

ing the balance of the first five

years.

The government pays \$149,000

annually for the use of the

terminal station and garage. The

lease of the station is for twenty

years at the rate of \$12,750 a

RED FLAG WEVERS SCORED

Court Tells Eighteen Arrested During Longshoremen's Strike Deportation Should Follow

"This court has no sympathy for persons bearing red flags instead of the stars and stripes. This court believes that every one setting the red flag above the banner of the United States should be deported. Such person should not be allowed the freedom that can be claimed by a citizen of the United States."

"Persons gathering under the protection of a red banner and there plotting to overthrow the government of the United States, in the opinion of this court, have no place on the free soil of the United States of America and should be removed from this country by force. This court is out of sympathy with this type of would-be American and where the law permits will see that they receive their just deserts."

This is what Police Judge Hugh J. Crawford said in the bench yesterday afternoon just before he dismissed eight defendants.

ONE DEAD, TWO INJURED IN FIRE

Officer Kitson rushed Hamlin and Dawson to the Receiving Hospital. Hope is held for their recovery.

HEAVY DAMAGE
R. W. Allen, merchandise auditor of the furniture company, was unwilling to estimate the damage. Firemen reported that the water had soaked the entire floor and that the water damage would be large. In addition to the fire loss, in the fire several months ago the loss was close to \$150,000.

A police investigation of last night's blaze will be demanded, it is understood, and an autopsy held over the body of Jensen, on the theory that he might have been murdered and left to be consumed by the flames.

At the same time fire of undetermined origin swept the garage and paint shop at Main and Fifteenth streets, completely destroying the structure and thirteen automobiles, resulting in damage estimated at more than \$100,000.

PERIL HOTEL
A dwelling next door, 111 West Sixteenth street, occupied by R. E. Meyers, also was seriously damaged, and for a time it was feared numerous other homes in the vicinity would be swept by the flames. For hours the black smoke billowed from the building.

Fears at first held that the Hotel Windsor, adjoining the garage, also would be burned. Quick action by firemen answered to two alarms, together with the absence of much breeze, probably resulted in preventing the damage reaching twice the estimated amount.

The fire in the beginning gained such rapid headway that before the firemen arrived the flames were rising more than 10 feet in the air, and the smoke was clearly visible from almost any part of the city.

The firemen's chief attention to keeping the fire from spreading, and were unable to prevent slight damage to the three-story brick structure occupied by the upholstering plant of August Hirsch, adjoining the garage.

The fire started about 8:47 o'clock in the finishing room of the paint shop operated by E. R. Marshall, W. A. McGuire and Jack Wright. McGuire and Wright were in the garage and top-shop run by A. D. White and John Doran, all in the same building, when they noticed flames leaping through the door of the finishing room.

At the same time Mrs. Meyers, next door, 111 West Sixteenth street, saw the flames and gave the alarm. So quickly did the fire sweep through the building that the two men were unable to remove any of the automobiles. A laundry wagon also was burned in the repair shop. The structure was owned by J. H. Harwood.

The loss was partly covered by insurance.

REDLANDS PUPIL WINS CONTEST

(Continued from First Page)

citizens and educators all over the state.

The purpose of the contest was to increase interest in and respect for the American Constitution. Intensive effort and study of the Constitution was reflected in the orations last night.

Mr. Brimastool, the winner, pointed out in his oration the difference between liberty and license. From Roman history he drew an example of law without liberty; from the French Revolution liberty without law and from the Constitution he declared grows the proper combination of the two.

"Duties of Citizenship" the subject of Mr. Berger's oration, brought forth expression of the respect in which the United States is held by the other nations of the world.

BOLSHIEVISM IS SCORED
"Bolshevism and Communism are not products of American soil," he asserted.

Miss Will's subject "Woman and the Constitution" enabled her to trace the influence exerted on the founders of the constitutional form of government in the United States by the women. She pointed out that women played an important part in reinforcing the determination of the early patriots and in molding their character.

Other speakers, their subjects and the institutions which they represent follow: Robert E. Lewis, Stanford University, "The Constitution"; Harold Daley, Loyola College, "The Constitution"; Roy Votaw, Whittier College, "Pillars of the Constitution"; John M. Burnett, University of Santa Clara, "The Constitution."

The judges were Dr. William E. Ritter, Jr., Rev. Joseph H. Johnson, Judge Paul J. McCormick, Dr. Milton Daley, Loyola College, "The Constitution"; Roy Votaw, Whittier College, "Pillars of the Constitution"; John M. Burnett, University of Santa Clara, "The Constitution."

The judges were Dr. William E. Ritter, Jr., Rev. Joseph H. Johnson, Judge Paul J. McCormick, Dr. Milton Daley, Loyola College, "The Constitution"; Roy Votaw, Whittier College, "Pillars of the Constitution"; John M. Burnett, University of Santa Clara, "The Constitution."

POLITICIANS IN SCHOOLS HIT

(Continued from First Page)

the deplorable political situation in the schools, follows:

To Members of the Los Angeles Elementary Principals' Club: The last issue of the Los Angeles School Journal (May 28) makes it imperative that our statement be forthcoming.

This Journal, as you probably know, was originally edited and published by the Principals' Club without the aid of other organizations. For the past few years we have been associated with the High School Teachers Association and the Secondary Principals' Club in the publication of this paper.

The advisory board of the journal consists of the chief editor, the business manager and the presidents of the clubs represented. It is the business of the board to decide the policy of the journal and it is agreed and understood that the Los Angeles School Journal is a nonpartisan publication, "dedicated to the welfare of the professional and educational interests of school people."

At present we are faced by a peculiar situation; the Principals' Club, although on record as wishing to remain neutral in the Board of Education fight, is nevertheless supporting and editing a journal which is not only giving publicity to one set of candidates, but is also doing all in its power to denigrate another set. This has been done through the right of veto had been exercised by one club through the unanimous action of our executive board at the beginning of the campaign.

The High School Teachers Association has seen fit to ignore the veto of our club and under the "cloak" of minutes has proceeded to use the journal as a medium of propaganda in their campaign for the so-called Teachers' Citizens ticket. Not only that, but they have used our own journal for an insidious attack upon the action of our own club.

We make no defense nor explanation of our position, nor of our manner of calling or conducting any meeting since we have been president.

SIGNIFICANT FACT
It is significant that the Journal of May 28 is the last to be published before the election on June 6.

After two years experience on the part of the club, the decision of your president that cooperation with the High School Teachers Association is not a possible thing, and that this is the time for dramatic action.

For this reason we are calling a special meeting of the club for Friday at 8 p. m. at the Grand avenue school. We will go into detail on the matter of the Journal at that time.

This is important. Your president has found the situation of the Los Angeles School Journal a difficult and far from pleasant one. She is asking your support and your attendance at this meeting.

Fraternally yours,
[Signed],
"MARY C. FLYNN,"

The so-called "teachers' candidates" who have been repudiated by the great body of teachers and principals, are: G. Bromley Oxnham, radical; John J. Craig, attorney; Mrs. Mary J. Craig, teacher; and William B. Himpf, teacher.

PUPILS WIN PRIZES FOR MUSIC TEST
Three Hundred Children on Honor List for Memorizing Noted Compositions

Three hundred children from the elementary schools of Los Angeles were awarded prizes yesterday afternoon at the Santos Junior High School when Miss Kathryn E. Stone, supervisor of music, presented gold and silver buttons to the winners of the third Music Memory Contest held last week for students of the fifth, sixth, seventh and eighth grades.

Nearly 100 were presented with the gold buttons for obtaining a perfect mark in the contest, and 200 were given silver buttons for attaining 95 per cent or better. All the pupils who won preliminary contests in the district were eligible to take place in the final contest where given bronze buttons.

Working in conjunction with the Music Memory contest, the music departments of the city schools selected a comprehensive list which embraced some of the finest compositions in the musical world on which the contest was based. Besides the usual Symphony Orchestra concert, each school devoted time in familiarizing the pupils with the list. Many of the motion-picture houses included songs from the list on their musical programs in order to help the children.

After the winners in each school had been chosen, the final contest for the fifth and sixth grades was held on May 23, and for the seventh and eighth grades on the following afternoon in the Manual Arts School. Pupils from nearly every school in the city took part in the final contest where selections from the list were played to them, after which they were required to tell the titles, sources and the composer.

HUGHES DUE TODAY
Writer of "Souls for Sale" Expected Home From East

Rupert Hughes, author and director of "Souls for Sale," produced by Goldwyn, will arrive in Los Angeles today from San Francisco, where he has made a short stay before returning here from the list which was played to them, after which they were required to tell the titles, sources and the composer.

Mr. Hughes has been gone about six weeks. While in New York he saw the presentation of "Souls for Sale" and laid plans for a new production, to be made for Goldwyn. Work will begin on this within a few weeks.

CHAMBER BACKS BONDS TO ADD PLAYGROUNDS
Hearty support for the Playground bond issue at next Tuesday's election was voted yesterday by the Board of Directors of the Chamber of Commerce, acting on a report from the committee on boulevards, parks and roads of which Paul G. Hoffman is chairman.

The report said the Playground Commission had promised an equipment fund of \$1,500,000, of the proposed \$1,500,000 fund, using a part for beach reclamation at Los Angeles Harbor and Santa Monica and the rest for parks scattered throughout the city.

"Recreation has a definite influence on the character of citizenship in any community," said the report. "The rapid growth of Los Angeles has brought a need for further development of our playground system."

GIRL GIVEN HEAVY VERDICT
Damages of \$10,000 were awarded Miss Theo Bartley against the Los Angeles Railway Company by a jury in Judge Willis's department of Superior Court yesterday for injuries asserted to have been received when she stepped from a street car on October 12, 1921. She sued for \$20,000.

ARMY CLERK WITNESS IN FRAUD CASE
Most of Week Spent in Showing Camp Goods Sold Were in Surplus Stock

The hearing of the charge of the government against eight suspects for alleged conspiring to defraud in the sale of surplus supplies at Camp Kearney, in February, 1922, on trial before a jury in Judge James's court, is unique in one respect—in that most of the week has been spent to show that the goods sold at the public auction were surplus stock, not needed by the Army.

D. Malcolm McVean, chief clerk of the quartermaster's department at Fort Mason, was again on the stand yesterday. In the inquiry of the government only copies of correspondence and orders were furnished, and in order to dispel the possible idea in the minds of the jury that the defendants had sequestered the original documents, most of the day was spent producing these. But it all simmered down to proof of the assertion that goods referred to in the indictment were "surplus stock."

The next witness will be W. W. Dulin, clerk in the quartermaster's department at Fort Mason, to show that Capt. Frank Tingley and Maj. Max Elmer were western surplus supply officers of the government; another fact not denied by either side.

To correct a possible misapprehension as to the status of the defendants, Harris and Hirsch in the testimony given by the witness Dulin, it may be stated that in the trips of McVean to Camp Kearney from San Francisco, the visit of McVean with certain defendants to Tijuana, and the placing of the army officers involved in the suit in a room occupied by one of the defendants in a hotel in San Diego, Harris and Hirsch were in no way involved. This was all before the sale, beginning February 23, 1922, and the sale of the goods was not in any way identified with the case until the second day of the sale, February 21, 1922.

THREE FOLD REASON FOR STARS' FETE

Birth, Wedding, Divorce Celebrated at Same Time at Buster Keaton Home

Three in one!
A birth.
A marriage.
A divorce.

Three events of great importance to Constance Talmadge, Mr. and Mrs. Buster Keaton and Baby Buster, respectively, were celebrated yesterday at the Buster Keaton home. The celebration took the form of a party given to Buster II, at which the Talmadges, Keaton and Schenck clans were in full attendance.

First in importance came Baby Buster's birthday celebration. Little Buster is just 1 year of age today, but his birthday was celebrated yesterday. The second reason for the celebration was due to the fact that at noon yesterday Constance received word that her final decree of divorce had been granted. There was another and more important reason for the celebration, and that was the wedding of Buster II and Natalie Talmadge, which was celebrated last night.

"Baby Buster's birthday cake was decorated with one big candle. Two small red candles on another part of the cake served to remind Buster Senior and Natalie that they had had two happy years of married life."

Constance Talmadge, interviewed as to the prospects of being engaged, said: "I have no intention of being engaged or married. When I do I will be glad to say so."

SHULER ALSO QUILTS OXNAM
(Continued from First Page)

principles of the soviet or communist form of government.

Following is the letter of Dr. Shuler to Mr. Oxnham, verbatim:

LOS ANGELES, Cal., June 1, 1923.
Rev. G. Bromley Oxnham, D.D., 2111-A Cambridge street, Los Angeles, Cal.

My Dear Mr. Oxnham: I have just finished reading the letter addressed to Dr. Byron H. Wilson by Col. LeRoy F. Smith and have also noted your answer to the questionnaire sent out by the Sons of the American Revolution concerning the teaching of American History in our public schools. With a heart hurt to the depths, I am writing you to say that I cannot go farther with you in your candidacy for the school board.

As you know, I endorsed your candidacy in the May Magazine. Yesterday we mailed out 14,000 copies of the June number, carrying the same endorsement. I have never been able to think with you, but I have believed in you. I have had intuition confidence in your ability, your honesty and the sincerity of your motives. Therefore, I have remained with you and for you, even when my better judgment prompted otherwise. But the issue is now so clearly drawn that I can no longer do so.

While it is now so clearly drawn that I can no longer do so, I still retain the same feeling of respect and esteem for your ability, your honesty and your sincerity. I am, however, that you are dreadfully wrong in your position, and two girls to whom I must answer, and I confess that your public attitude in an hour of national peril, and your associations with a mighty attack being made by these forces upon our government, are too much for me.

Never in my life have I faced a necessity that grieved me more than this, but my love for America and her institutions has demanded upon me that has been for several days insistent and has demanded that I have set going through my indorsement of your candidacy.

Yours ever,
[Signed], BOB SHULER.

North End Site for City Hall Again Indorsed

The Second-street Tunnel and Improvement Association has indorsed for re-election the incumbent candidates for the City Council and in addition Miles Gregory, who was elected to the council, always a hard worker for the treasury.

For freshers it indorses Orra Monnette, Clarence Horn, Dr. Maynard and John Toftum.

This Association strongly urged the placing of the City Hall north of First street in the official civic center. It recommended the Plaza site for the union depot, the harbor bonds and the subway under Pershing Square.

COBBED BY HOTEL THIEF
Roy Burnett of Los Angeles, reported to police in Lincoln, Neb., that he was robbed of \$489 in cash, \$50 in traveler's checks and a gold watch yesterday by a hotel thief Thursday night, according to reports last night from that city.

Summer Parasols of Gray Hued Silks

A LIGHT silk parasol—butterfly colored—is not so fragile a protection from a beating sun. And summertime brings them fluttering out to accompany the gayly hued frocks.

This assortment brings with it the exquisite colorings and graceful silhouettes that help decorate the leisurely summer stroll. One may swing it by the wrist strap or put it up to shield the eyes from the ruinously hot sun.

The delightful colors include orchid, green, blue, rose, in plain colors as well as stripes of various tones and designs of gayly colored figures. Some of them are shirred slightly and of flatter shape, while others more roundly are tautly covered.

The prices begin at \$7.00.

FIRST FLOOR

Women's Imported Lisle Hose \$1.25 and \$1.50

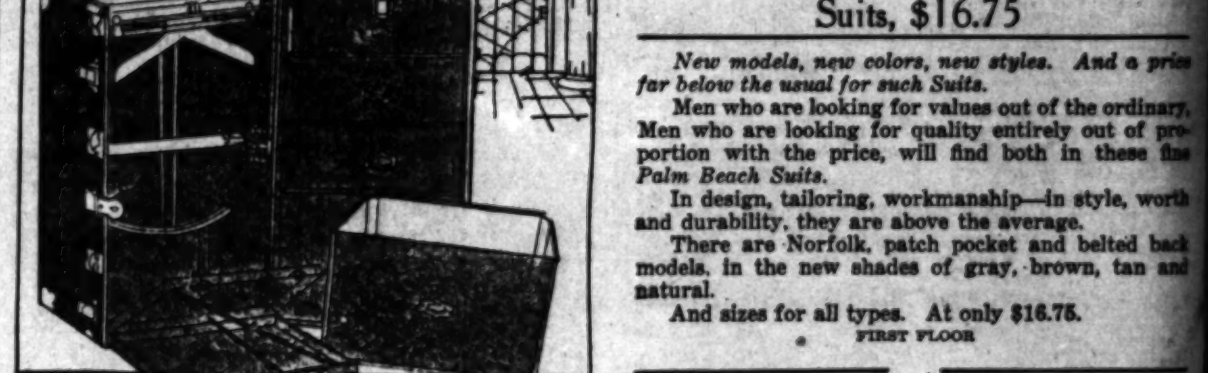

1200 Pairs of these fine Lisle Hose—all of them imported, all of a quality far above their low prices. And in a wide range of attractive styles and colors.

In black with red, green or white clocks. In black, white and brown, with fancy lace stripes.

In gray with fancy lace clocks. In and in putty, gray, black and white, in fancy weaves.

At these two low prices: \$1.25 and \$1.50.

FIRST FLOOR

Robinson-Hartmann Wardrobe Trunks \$49.50

THE stress and strain of rough handling en route scarcely phase a Robinson-Hartmann Wardrobe Trunk. It is too thoughtfully constructed.

Cleverly outfitted within—The Garment Section with patented cushion top, hangers and retaining bar—the Removable Shoe Box—the Lockable Drawer Sections that are reinforced with metal bindings—and the lining of blue Keratol.

The Gibraltarized construction of the exterior makes it practically invulnerable. The three ply base is covered with vulcanized fiber, the hardware is thoroughly riveted; bolts and hinges and locks are the final completing touch.

The useful size with a capacity of eleven hangers is priced at \$49.50.

One slightly larger with a capacity of thirteen hangers is priced at \$52.50.

FIRST FLOOR

Dressing Sacques of Crepe De Chine \$2.95

A PRICE very greatly reduced from the former one, will make these Dressing Sacques an especially noteworthy Saturday opportunity.

Of crepe de chine in soft colors, all of hip length, and bordered with delicate ruffles. Delightful little Sacques for the rites of Breakfast-in-bed.

Just 60 of them to be reduced on Saturday to only \$2.95.

THIRD FLOOR

Imported English Gingham 75c a yard

THESE Gingham from England are a specially fortunate purchase that Robinson's recently made—for now it is possible to offer them at surprisingly low prices.

1000 yards of the checked effects, brought out in all the newer and more popular shades and in checks of three different sizes. Colors are Copen, Heliotrope, Green, Red, Brown, Pink and Orange.

800 yards of English Gingham in small plaid effects, these are in rather unusual designs and extremely attractive, the quality of the material being fine and substantial. At 75c the yard.

SECOND FLOOR

Board Decides on Status of Airplane in Warfare

Submarine and Submarine Hailed as Last Word in Naval Weapons

BY GRANT WILCOX
(Exclusive Dispatch)

WASHINGTON, June 2.—The Department is giving serious consideration to the growing importance of the airplane and its relative importance in the future of the war.

Particular attention has been given to the claim advanced by the airplane is the all-time force that has made the obsolete a weapon of war, and the Navy Department has taken definite action to determine the merits of the airplane as a weapon of war.

The board has been studying the development of the airplane, submarine and other modern weapons of warfare. For the board has been studying the development of the airplane, submarine and other modern weapons of warfare.

Individual reports have been made to get all opinions. In spite of great strides made in the development of the airplane, nothing has developed that is so effective as the submarine, which is obsolete or that the airplane or will be superseded by the submarine of naval power.
